VOLUME XIV — THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING JULY 20, 1920 — NUMBER 313

$600,000,000 WAGE BOOST TO RAILROADERS

Substantial Increases Are Given Men In Every Department of the Service

Decision of Wage Board, Which Was Not Unanimous, Handed Down At 10 O'clock This Morning

BROTHERHOOD CHIEFS CONFER

By L. R. BLANCHARD
United Press Staff Correspondent

CHICAGO, July 20—The United States Railroad Labor Board today announced wage increases totalling alomst $600,000,000 annually for 1,894,287 employes of the roads. Leaders of the 16 railroad labor crafts affected by the increases were to go into session today at eleven o'clock to consider the award. Their approval or disapproval probably will be announced by tomorrow night. Their recommendation to the workers in the ranks probably will determine whether or not there will be strike trouble in the near future.

Judge R. N. Barton, chairman of the board handed out the pamphlets containing the awards. Immediately afterwards he called a conference of all leaders of the unions and E. T. Whiter chairman of the Board of Railroad Managers, announced that union leaders were to meet the general chairmen of the unions to discuss the award.

The wage increases were given in terms of hours and per day. In the train and engineer service the increases were per day: Passenger engineers and firemen receive 80c, firemen's helpers 80c. Freight engineers and firemen $1.04, firemen's helpers $1.04. Yard engineers 18c per hour, yard firemen 18c per hour, helpers 18c per hour. Hostlers from $5.04 to $6.24 a day.

Passenger service increases were by the month. Conductors $30 a month, baggagemen, expressmen, and flagmen $30. Suburban conductors collectors and guardmen $30.

In the freight service conductors and brakemen were given $1.04 a day. In the yard service the wages were set at $6.96 per day for the firemen, $6.48 for the helpers and $5.04 per day for the switch tenders.

Clerks and station forces were given hourly wage increases. Storekeepers and their helpers and clerks with more than a year of experience were given increases of 13c per hour. Clerks of less experience were awarded 6½c increase.

Gatemen, assistant station masters and parcel room employes were given a 13c increase. Janitors, elevator and switchboard operators were awarded 10c increase. All common laborers, freight station and warehouse employes not otherwise provided for were awarded 8½c increases.

Workers in the maintenance of way were given hourly increases. Mechanics except those affected by the agreement with the union 15c increase, mechanics' helpers, laborers, draw bridge tenders, pump engineers and crossing workers were given 8½c. Laborers in the round house and shops such as wipers, etc., were given a 10c increase.

Shop employes including supervisors, machinists, boilermakers and all classes of skilled laborers and their helpers and apprentices were awarded a 13c increase. Car cleaners were given 5c.

All telegraph and telephone men except as otherwise provided for, tower and cab men were given 10c per hour. Stationary engineers, firemen and their helpers were given 13c increases.

The decision of the board was not unanimous. The board declared the increases were granted on the "judgment of the majority of the board." No announcement was made of the initial standing of the members. In reaching the decision the board took into consideration the following: Scale of wages for similar work in other industries relation of wages to the cost of living class of employment, training and skill required, degree of responsibility and the character and regulation of employment.

Anticipating that the award would not meet with universal approval and in order to alleviate dissatisfaction the board said "those persons who consider the rates determined herein too high should reflect on the abnormal conditions resulting from the high cost of living and the high rates now being paid in other industries. The employes who believe these rates are too low should consider the increased burden these rates will place on their fellow coutrymen perhaps less favorably situated than themselves."

METHODIST DAY AT LAKEMONT PARK

Thursday, July 22, is the big annual outing of the Methodists at Lakemont Park, Altoona. The people in a radius of a hundred miles look forward to this day as a time for renewing acquaintance, greeting friends and for hearing some of the prominent men of Methodism. The speakers this year are Rev. Dr. Morris E. Swartz, well known to Clearfield people' Bishop Bickley recently elected to the Episcopacy and assigned to Singapore in charge of the work in southeastern Asia; and Rev. Dr. T. W. McKinney, the militant pastor at Contesville.

Some years ago the Methodists from this section attended these annual gatherings in such numbers as to justify the running of a special train. The rate this year over the Pennsy is $2.38 for round trip. The late train gives visitors from Clearfield a chance to enjoy most of the program.

BIG SALE OF ROAD BONDS

The state board in charge of the road bond issue will receive bids to noon of July 21 for $12 000.000 of 4½ per cent bonds. A syndicate of Philadelphia and Pittsburgh bankers will take the entire issue. It was originally intended to issue $18,000,000 of long term bonds, but instead $12,000.000 of short term bonds will be put out.

GOVERNMENT WATCHES WITH DEEP INTEREST

WASHINGTON, D. C., July 20.—The government is watching with "deep interest" the proposed lay-off of men by the Pennsylvania railroad and the closing of the American Woolen mills, it was said at the White House today. It was not indicated where any action was contemplated.

COURT NOTES

Bella Wilkinson, by her Attorney J. Ward Fleming Esq., began proceedings in the Clearfield county courts yesterday for the purpose of securing a divorce from Charles Wilkinson. They were married April 22d, 1903, and it is alleged the husband deserted Dec. 25, 1904.

Attorney Fleming also filed a notice of divorce on behalf of Augusta Lamb, who seeks to be legally divested of her former "bell sheep," Alfred Lamb. The complainant recites that when she married her old sheep on Sept. 4, 1913, he was quite lamb-like, but that almost immediately thereafter he showed a decided change of front, roaring like a lion at the smallest and with no provocation and subjecting his little lamb to cruel and barbarous treatment, keeping her in fear and trembling while he was about. She also says she has reason to believe he gamboled about the village green in England with another ewe lamb which he had legally taken into his fold and had never legally surrendered his shepherd's rights. She now regards him as a strong old mutton and having been forced to hurdle the fence of his pasture lot on Nov. 29, 1919, she will have nothing further to do with him, hence this divorce suit.

SURE WAS AN OBLIGING SONOFAGUN

LONDON, July 19.—A husband who lent his wife and paid her an allowance of $5 a week while she lived with another man has been revealed in a case before the Clerkenwell Magistrate. The loaned wife's allowance didn't arrive last week. Known, the consignee, so to speak, found her taking his clothes out to pawn them, and he lost his temper. When she brought him into court for assault and explained to the Judge that she merely borrowed his clothes and would have reclaimed them when her allowance arrived, the judge ruled that the husband "must be a remarkably good chap." and fined Brown $10.

FATAL AUTO ACCIDENT NEAR HOLLIDAYSBURG

HOLLIDAYSBURG, PA., July 20.—Thomas A. Herr, aged 37, and Herman McDuff, aged 37, were killed today when an automobile overturned at Frankstown near here. A. F. Shomberg, and Aaron Fleck are at their homes seriously injured. The men are all business men of Altoona. George and Joseph Graff, of Punxsutawney, were also hurt.

CLEARFIELD MUSICIANS, ATTENTION

Opening rehearsal of Clearfield's American Legion Band Tuesday evening, July 20th at 8 o'clock at Legion Club Rooms in County National Bank Building.

If you have not received a letter or have no instrument come anyway.

Prof. H. Clark Thayer, director.

Let's all get together and make this a first class organization.

This evening at 8 o'clock.

THE STOCK MARKET

NEW YORK, July 20.—One o'clock prices on the stock exchange today were: American Locomotive 99¼ Bethlehem Steel B. 88¾. Cruible Steel 155½. General Motors 25. General Electric 142½. Mexican Petroleum 190, Midvale 40?. Pennsylvania 39. Republic Iron and Steel 91¼. Westinghouse Electric 48⅜.

ATTEMPTED LYNCHING RESULTS FATALLY

DURHAM, N. C., July 20.—One man was killed and two wounded early today when a mob stormed the county jail at Graham, N. C., where three negroes accused of assaulting Mrs. A. A. Riddle were confined. The mob attempted to rush the jail three times. The mob fired on machine gunners who were guarding the jail. The guard returned the fire, killing James Ray and wounding two others. During the night the negroes were smuggled out of jail and rushed on a special train to the state prison at Raleigh.

Mrs. Riddle was attacked Saturday night and the negroes were taken into custody Sunday. Race feeling has been running high since news of the assault was made known.

TWELVE PASSENGERS INJURED IN WRECK

WILMERDING, PA., July 20.—Twelve passengers were slightly injured when an east bound Pennsylvania railroad local train was sideswiped by a freight train at a sharp curve near here today. The injured were attended by doctors from Pitcairn.

GRAMPIAN BOY MARINE SHARPSHOOTER

By showing marked skill as a rifleman, Private Andrew W. Phillips of Grampian, this county, has qualified as a sharpshooter in the U. S. Marine Corps, according to a recent official report from Santo Domingo where he is stationed. Hereafter he will wear the sharpshooter's medal and will receive an increase in pay.

Private Phillips who is a son of Charles A. Phillips of Grampian, enlisted in the Marine Corps in September, 1919 at Tulsa, Okla. After completing his period of training he was sent with a detachment of Marines to Santo Domingo, in the West Indies. During recent rifle tests, he demonstrated his ability, scoring enough hits to make his standing as a rifleman secure.

For several years the Marines have helped to preserve order and maintain good government in this turbulent little republic. That their efforts have borne fruit is testified to by returning travelers, who tell of a stabilized government, good roads, a school system, and a general improvement in the industrial conditions of the country.

It is not known just how long young Phillips will remain in Santo Domingo, but it is probable that he will return to the United States within a year, when his tour of duty in the West Indies will have been completed.

THE PASSING AWAY OF DR. C. E. BELCHER

Dr. C. E. Belcher, a former well known Munson physician, died at his home in Barnesboro, at 12 o'clock on Thursday, July 15, 1920, following a lingering illness. His demise was the result of nephritis.

Dr. Belcher who was a native of Newark Valley, N. Y., was aged about 67 years and had practiced medicine for 35 years or more. Feeble health forced him to give up his profession several years ago. He was a genial, courteous gentleman, a successful physician, and during his residence at Munson made many warm friends.

He is survived by his widow, three sons and three daughters, viz: J. W., of Chicago; C. E., of Akron, Ohio; Lonir, of Barnesboro and Mrs. Hampton Long and Misses Mable and Kathryn at home.

The body was conveyed to Munson and buried there on Saturday afternoon.

Mr. and Mrs. John Boyle, Mr. and Mrs. Roland Toot, and Mr. and Mrs. F. E. Johnstonbaugh have returned from a motor trip to Bellefonte State College and Penn's Cave.

COL. HOUSE SUPPLIES LEAGUE AMMUNITION

MARION, O., July 19.—Another attack on the league of nations covenant was launched today by Senator Warren G. Harding, the Republican presidential nominee, when he quoted Colonel E. M. House as authority for the statement that Europe wished a preliminary peace treaty immediately after the armistice of November 11, 1918, but was deterred by the United States in expediting peace.

In a statement on the subject Senator Harding said:

"We are beginning to understand the mistakingly plighted relationships of the United States to Europe just in time to proceed to a referendum intelligently. The one representative of this country, other than the president, who knew the situation at Paris, was Colonel House. He tells us, now, in a cabled statement from London, that the suggestion of a preliminary peace treaty was made very soon after the armistice and that such a treaty could have been made before Christmas of 1918.

"All along this has been the Republican conception of what ought to have been done, but this is the first official knowledge that Europe wished such a procedure and was deterred by us in expediting peace. The authentic revelation is interesting at the moment when it is announced that the continuation of a Democratic administration means a continuation of the foreign policy which has so grievously disappointed both Europe and America."

Former Senator Jos. L. Bristow, of Kansas, who was identified with the extreme progressive group in the United States senate during his term has written Senator Harding that unless there is a revolution in public opinion between now and election Kansas will give him fully 100,000 majority.

CHAUTAUQUA TICKETS ARE GOING WELL

Clearfield's 1920 Chautauqua ticket sale is going along in very fine shape. The house-to-house canvass is now being made and from the reports of the various teams the response has been nearly one hundred per cent.

To those folks who have procrastinated in their season ticket buying it will be of interest to note that when the sessions open the season ticket sale closes. That there is a vast difference between the cost of attending the individual sessions and the buying of a season ticket is generally known but this year the saving amounts to more than usual.

The teams are still at work and to those who contemplate the purchase of season tickets, the Executive Committee suggests that you get in touch with some member of the selling teams and get your ticket before it is too late.

PLEASANT BIRTHDAY PARTY AT WINBURNE

Ten little misses of Winburne gathered on Saturday afternoon at the home of Daniel M. Bloom of Winburne, to help his granddaughter Miss Rita Fern Stilson, celebrate her third birthday.

After becoming acquainted with her guests, Miss Rita Fern presided at the head of a long table in a room hung with pink and white decorations, and the main event of the afternoon was attended to, following which games were enjoyed.

Next in importance to the refreshments was when the moment came for the opening of the gifts. Little Miss Stilson must have thought that Santa Claus had made a mistake in his dates, so many and nice were the presents which her guests added to those provided by members of the family. It may be significant for her future that a miniature broom seemed to be her favorite of all.

The guests who helped to make the day pleasant were: Misses Marie George, Maude Smeal, Mildred George, Geraldine Hewitt, May Brooks, Helen Johnson, Catherine Swanson, Louise Vallance, Eleanor Vallance, and Loretta Dorney, all of Winburne.

Espy M. Litz and Sam Randolph of Akron Ohio, are visiting Mr. Litz' brother Ray Litz of Clearfield.

H & C Telephone Co Wants Protest Lifted

Lays Cards On Table At Meeting of Council Last Evening in Showing Necessity For Rate Increase

BOROUGH DADS HEED APPEAL

The semi-monthly meeting of Council held at the Borough building last evening was attended by nine of the twelve members. President Pletcher was in the chair and Burgess Chase was also present.

Treasurer Wright's report showed a balance of $12,898.10 in the treasury.

Burgess Chase reported three arrests and the collection of $24 in fines for June.

Engineer Hess reported on the progress of the Third street paving and recommended that the sandstone curbs on the east side be removed and concrete curbs and gutters substituted.

A. B. Reed, F. B. Kerr, A. D. Bigler, A. K. Wright and A. Wright Bigler were present regarding the condition of the public parks along the river. They complimented Council on what had been done for their improvement thus far this year, but asked that the good work be continued and suggested some additional needs. In compliance with their request President Pletcher directed that the Highway Department assist the Shade Tree Commission in the maintenance of these parks.

While the matter of beautifying the parks and the river front was up, the condition of the dam across the river at the N. Y. C. station was brought to the attention of council and the Sewer Committee was instructed to get an estimate of the cost of repairing the old dam and raising it one foot higher. The addition of a foot to this dam will raise the water well above the mouths of the many sewers opening into the river through town and succeed in changing the river front from the eye-sore and disgrace it is at present to one of the show places of the town. In addition thereto such improvement would be a decided benefit to the public health.

The Sewer Committee will report their findings at Council meeting on Monday evening, August 2d.

D. D. Guppy was present and complained about sewer conditions at Fourth and Market streets and the Sewer Committee was instructed to devise some measure of temporary relief while the enlarging of the Fourth street sewer was being provided for. The Sewer Committee contemplates the building of a sanitary sewer on Fourth street which will mean the taking of the sewage out of the Fourth street drain and the utilizing of the present sewer for storm water alone.

O. B. Porter and S. R. Caldwell of the H. & C. Telephone Co., appeared before Council and made a plea to have Council withdraw its objection to the proposed service rate increase of that company. Mr. Porter, who acted as spokesman, said he appeared not as the official representative of the Telephone Company but on his own initiative and for the purpose of acquainting Council with the facts in the case and to show what they were up against. He said the H. & C. Co. property valuation was about $500,000. This property belonged to 150 investors or stockholders, 21 of this number residing right here in Clearfield; that their revenues for 1919 were $127,108, but by reason of present conditions their expenses for the year were $27,000 more than this income total. He quoted figures, giving the advance in price of materials, etc., during the past four or five years to justify their proposed increase in rates and said they must have the increase to give proper service, as the present inadequate service was due in part to the human element and part to defective and worn out mechanical parts which could not be replaced for lack of necessary funds. To make the physical valuation of the plant required by the Public Service Commission to show justification for the asked for increase in rates would require an additional $5000, which the company did not possess, and to require them to comply therewith simply meant bankruptcy and a receivership added to their other troubles, and the increased rates in the end. That with the present stated increased rates the company would be rehabilitated and refinanced and the service improved to the desired condition.

After some discussion Council decided to withdraw its objection to the increase, provided Philipsburg, Osceola and the other objectors also joined in the movement.

Several months ago the Finance Committee and Borough Solicitor agreed with the banks of the town on financing of the Third street paving improvement and Fourth street sewer enlargement. At this meeting the banks agreed to handle the improvement bonds to be issued to provide for this work. The rate of interest was fixed at 4½ per cent, the redemption period and term of bonds agreed upon. The bonds were printed and advertised in accordance with the arrangement but when the negotiation of the bonds was attempted the bankers had changed their minds, and declaring the rate of interest on municipal bonds was now fixed at 5¼ per cent., refused to take the issue.

The above facts were contained in a report to Council made by Borough Solicitor Urey, who also presented an Ordinance providing for an issue of bonds at the new rate and the same was read and passed. This will require the reprinting of the bonds entailing an additional expense of about $100.

The work of improving Third street is already well under way, and while the money under the present conditions would not be available for thirty days yet, the banks agree to furnish the needed funds pending the advertisement of the Ordinance and sale of bonds.

PENNSY BEGINS TO LAY OFF MEN

PHILADELPHIA, July 19—A 10 per cent. reduction in the working forces of the Pennsylvania railroad will be made this week. Announcement of the cut was made today at the company's office in this city. In the Eastern region alone, which takes in the territory east of Altoona, between 11,000 and 12,000 workers will be laid off, it was stated.

It was stated the reduction was rendered necessary by the fact that expenses have been exceeding income for some time past. In view of this condition the announcement said, it was decided to "trim sails" and put economics into operation. The reduction affects the entire system.

Shopmen Affected

A majority of those to go are in the shops or clerical department. This action was decided upon at a meeting of the general staff of the railroad.

The general strike threatened by leaders of railway labor unions because of the anticipated wage awards of the railway labor board has nothing to do with the railroad's action, said high officials of the Pennsylvania today.

"It perhaps is unfortunate" said the official "that the order should come at the time when there is talk of a strike. But decision to take this step was made some time ago and is in no way connected with the matters under arbitration."

May Affect Lines West

Chicago, July 19—At the office of J. G. Rodgers, vice president of the Northwestern region of the Pennsylvania, it was said a reduction in this territory is under consideration, but the percentage of men to be laid off and the date when the order will be effective have not been decided. Each of the four Pennsylvania system regions act independently. The other two have offices at St. Louis and Pittsburgh.

$600,000,000 WAGE BOOST TO RAILROADERS

Substantial Increases Are Given Men In Every Department of the Service

Decision of Wage Board, Which Was Not Unanimous, Handed Down At 10 O'clock This Morning

BROTHERHOOD CHIEFS CONFER

By L. R. BLANCHARD
United Press Staff Correspondent

CHICAGO, July 20—The United States Railroad Labor Board today announced wage increases totalling alomst $600,000,000 annually for 1,894,287 employes of the roads. Leaders of the 16 railroad labor crafts affected by the increases were to go into session today at eleven o'clock to consider the award. Their approval or disapproval probably will be announced by tomorrow night. Their recommendation to the workers in the ranks probably will determine whether or not there will be strike trouble in the near future.

Judge R. N. Barton, chairman of the board handed out the pamphlets containing the awards. Immediately afterwards he called a conference of all leaders of the unions and E. T. Whiter chairman of the Board of Railroad Managers, announced that union leaders were to meet the general chairmen of the unions to discuss the award.

The wage increases were given in terms of hours and per day. In the train and engineer service the increases were per day: Passenger engineers and firemen receive 80c, firemen's helpers 80c. Freight engineers and firemen $1.04, firemen's helpers $1.04. Yard engineers 18c per hour, yard firemen 18 per hour, helpers 18c per hour. Hostlers from $5.04 to $6.24 a day.

Passenger service increases were by the month. Conductors $30 a month, baggagemen, expressmen, and flagmen $30. Suburban conductors collectors and guardmen $30.

In the freight service conductors and brakemen were given $1.04 a day. In the yard service the wages were set at $6.9[illegible] per day for the firemen, $6.48 for the helpers and $5.04 per day for the switch tenders.

Clerks and station forces were given hourly wage increases. Storekeepers and their helpers and clerks with more than a year of experience were given increases of 13c per hour. Clerks of less experience were awarded 6½c increase.

Gatemen, assistant station masters and parcel room employes were given a 13c increase. Janitors, elevator and switchboard operators were awarded 10c increase. All common laborers, freight station and warehouse employes not otherwise provided for were awarded 8½c increases.

Workers in the maintenance of way were given hourly increases. Mechanics except those affected by the agreement with the union 15c increase, mechanics' helpers, laborers, draw bridge tenders, pump engineers and crossing workers were given 8½c. Laborers in the round house and shops such as wipers, etc., were given a 10c increase.

Shop employes including supervisors, machinists, boilermakers and all classes of skilled laborers and their helpers and apprentices were awarded a 13c increase. Car cleaners were given 5c.

All telegraph and telephone men except as otherwise provided for, tower and cab men were given 10c per hour. Stationary engineers, firemen and their helpers were given 13c increases.

The decision of the board was not unanimous. The board declared the increases were granted on the "judgment of the majority of the board." No announcement was made of the initial standing of the members. In reaching the decision the board took into consideration the following: Scale of wages for similar work in other industries relation of wages to the cost of living class of employment, training and skill required, degree of responsibility and the character and regulation of employment.

Anticipating that the award would not meet with universal approval and in order to alleviate dissatisfaction the board said "those persons who consider the rates determined herein too high should reflect on the abnormal conditions resulting from the high cost of living and the high rates now being paid in other industries. The employes who believe these rates are too low should consider the increased burden these rates will place on their fellow countrymen perhaps less favorably situated than themselves."

METHODIST DAY AT LAKEMONT PARK

Thursday July 22, is the big annual outing of the Methodists at Lakemont Park, Altoona. The people in a radius of a hundred miles look forward to this day as a time for renewing acquaintance, greeting friends and for hearing some of the prominent men of Methodism. The speakers this year are Rev. Dr. Morris E. Swartz, well known to Clearfield people. Bishop Berry event is elected to the Episcopacy and assigned to Singapore in which he will make the entire tour. A special train is expected to leave Clearfield at [illegible] and Rev. Dr. T. W. McKinney, [illegible] pastor at Cedarville. Several cars from the Methodists from this section attended the annual gatherings in such numbers as to justify the running of a special train. The rate this year over the Pennsy is $2.58 for round trip. The late train gives visitors from Clearfield a chance to enjoy most of the program.

BIG SALE OF ROAD BONDS

The state board in charge of the sale bonds issue will receive bids noon of July 21 for $12,000,000 of 4½ per cent bonds. A syndicate of Philadelphia and Pittsburgh bankers will take the entire issue. It was originally intended to issue $18,000,000 of long term bonds, but instead $12,000,000 short term bonds will be put out.

GOVERNMENT WATCHES WITH DEEP INTEREST

WASHINGTON, D. C., July 20.—The government is watching with "deep interest" the proposed lay-off of men by the Pennsylvania railroad and the closing of the American Woolen mills, it was said at the White House today. It was not indicated where any action was contemplated.

COURT NOTES

Bella Wilkinson, by her Attorney J. Ward Fleming Esq., began proceedings in the Clearfield county courts yesterday for the purpose of securing a divorce from Charles Wilkinson. They were married April 22d, 903, and it is alleged the husband deserted Dec. 25. 1904.

Attorney Fleming also filed a notice of divorce on behalf of Augusta Lamb, who seeks to be legally divested of her former "bell sheep." Alfred Lamb. The complainant recites that when she married her old sheep on Sept. 4, 1913. he was quite lamb-like, but that almost immediately thereafter he showed a decided change of front, roaring like a lion at the smallest and with no provocation and subjecting his little lamb to cruel and barbarous treatment, keeping her in fear and trembling while he was out. She also says she has reason to believe he gamboled about the village green in England with another ewe lamb which he had legally taken into his fold and had never legally surrendered his shepherd's rights. She now regards him as a strong old mutton and having been forced to hurdle the fence of his pasture lot on Nov. 29, 1919, she will have nothing further to do with him, hence this divorce suit.

SURE WAS AN OBLIGING SONOFAGUN

LONDON, July 19.—A husband who sent his wife and paid her an allowance of $3 a week while she lived with another man has been revealed in a case before the Clerkenwell Magistrate. The loaned wife's allowance didn't arrive last week. Brown, the consignee, went to speak, found her taking his clothes out to pawn them, and he lost his temper. When she brought him into court for assault and explained to the Judge that she merely borrowed his clothes and would have reclaimed them when her allowance arrived, the judge ruled that the husband "must be a remarkably good chap," and fined Brown $10.

FATAL AUTO ACCIDENT NEAR HOLLIDAYSBURG

HOLLIDAYSBURG, PA., July 20.—Thomas A. Herr, aged 37, and Herman McDuff, aged 37, were killed today when an automobile overturned at Frankstown near here. A. F. Shoenberg, and Aaron Fleck are at their homes seriously injured. The men are all business men of Altoona. George and Joseph Graff, of Punxsutawney, were also hurt.

CLEARFIELD MUSICIANS, ATTENTION

If you have not received a letter or have no instrument come anyway.

Prof. H. Clark Thayer, director.

Let's all get together and make this a first class organization.

This evening at 8 o'clock.

THE STOCK MARKET

NEW YORK, July 20—One o'clock prices on the stock exchange today were: American Locomotive 99, Baldwin Locomotive 99, Bethlehem Steel B 88⅜, Crucible Steel 75½, General Motors 25, General Electric 141½, Mexican Petroleum 190, Midvale 40⅞, Pennsylvania 39, Republic Iron and Steel 94¼, Westinghouse Electric 45⅞.

ATTEMPTED LYNCHING RESULTS FATALLY

DURHAM, N. C., July 20.—One man was killed and two wounded early today when a mob stormed the county jail at Graham, N. C., where three negroes accused of assaulting Mrs. A. A. Riddle were confined. The mob attempted to rush the jail three times. The mob fired on machine gunners who were guarding the jail. The guard returned the fire, killing James Ray and wounding two others. During the night the negroes were smuggled out of jail and rushed on a special train to the state prison at Raleigh.

Mrs. Riddle was attacked Saturday night and the negroes were taken into custody Sunday. Race feeling has been running high since news of the assault was made known.

TWELVE PASSENGERS INJURED IN WRECK

WILMERDING, PA., July 20.—Twelve passengers were slightly injured when an east bound Pennsylvania railroad local train was sideswiped by a freight train at a sharp curve near here today. The injured were attended by doctors from Pittsburgh.

GRAMPIAN BOY MARINE SHARPSHOOTER

By showing marked skill as a rifleman, Private Andrew W. Phillip of Grampian, this county, has qualified as a sharp-shooter in the U. S. Marine Corps, according to a recent official report from Santo Domingo where he is stationed. Hereafter he will wear the sharpshooter's medal and will receive an increase in pay.

Private Phillip who is a son of Charles A. Phillips of Grampian, enlisted in the Marine Corps in September, 1919 at Tulsa, Okla. After completing his period of training he was sent with a detachment of Marines to Santo Domingo, in the West Indies. During recent rifle tests, he demonstrated his ability, coring enough hits to make his standing as a rifleman secure.

For several years the Marines have helped to preserve order and maintain good government in this turbulent little republic. That their efforts have borne fruit is testified to by returning travelers, who tell of a stabilized government, good roads, a school system, and a general improvement in the industrial conditions of the country.

It is not known just how long young Phillips will remain in Santo Domingo, but it is probable that he will return to the United States within a year, when his tour of duty in the West Indies will have been completed.

THE PASSING AWAY OF DR. C. E. BELCHER

Dr. C. E. Belcher, a former well known Munson physician, died at his home in Barnesboro, at 12 o'clock on Thursday, July 15, 1920, following a lingering illness. His demise was the result of neuphritis.

Dr. Belcher who was a native of Newark Valley, N. Y., was aged about 67 years and had practiced medicine for 35 years or more. Feeble health forced him to give up his profession several years ago. He was a genial courteous gentleman, a successful physician, and during his residence at Munson made many warm friends.

He is survived by his widow, three sons and three daughters, viz: J. W., of Chicago; C. E., of Akron, Ohio; Louis of Barnesboro and Mrs. Harper Long and Mrs. Maude and Kathryn at home.

The body was conveyed to Munson and burial there on Saturday afternoon.

Mr. and Mrs. John Boyle, Mr. and Mrs. Robert Tobin, Mr. and Mrs. [illegible] motored to Altoona on Sunday.

Rep. M. Lee and Sam Reybold of Altoona on Monday morning Mr. Lee's guest was Roy Lutz of Courtney.

COL. HOUSE SUPPLIES LEAGUE AMMUNITION

MARION, O., July 19.—Another attack on the league of nations covenant was launched today by Senator Warren G. Harding, the Republican presidential nominee, when he quoted Colonel E. M. House as authority for the statement that Europe wished a preliminary peace treaty immediately after the armistice of November 11, 1918, but was deterred by the United States in expediting peace.

In a statement on the subject Senator Harding said:

"We are beginning to understand the mistakingly plighted relationships of the United States to Europe just in time to proceed to a referendum intelligently. The one representative of this country, other than the president, who knew the situation at Paris, was Colonel House. He tells us, now, in a cabled statement from London, that the suggestion of a preliminary peace treaty was made very soon after the armistice and that such a treaty could have been made before Christmas of 1918.

"All along this has been the Republican conception of what ought to have been done, but this is the first official knowledge that Europe wished such a procedure and was deterred by us in expediting peace. The authentic revelation is interesting at the moment when it is announced that the continuation of a Democratic administration means a continuation of the foreign policy which has so grievously disappointed both Europe and America."

Former Senator Jos. L. Bristow, of Kansas, who was identified with the extreme progressive group in the United States senate during his term has written Senator Harding that unless there is a revolution in public opinion between now and election Kansas will give him fully 100,000 majority.

CHAUTAUQUA TICKETS ARE GOING WELL

Clearfield's 1920 Chautauqua ticket sale is going along in very fine shape. The house-to-house canvass is now being made and from the reports of the various teams the response has been nearly one hundred per cent.

To those folks who have procrastinated in their season ticket buying it will be of interest to note that when the sessions open the season ticket sale closes. That there is a vast difference between the cost of attending the individual sessions and the buying of a season ticket is generally known but this year the saving amounts to more than usual.

The teams are still at work and to those who contemplate the purchase of season tickets, the Executive Committee suggests that you get in touch with some member of the selling teams and get your ticket before it is too late.

PLEASANT BIRTHDAY PARTY AT WINBURNE

Ten little misses of Winburne gathered on Saturday afternoon at the home of Daniel M. Bloom of Winburne, to help his granddaughter Miss Rita Fern Stilson, celebrate her 10th birthday.

After becoming acquainted with her guests, Miss Rita Fern presided at the head of a long table in a room hung with pink and white decorations, and the main event of the afternoon was attended to, following which games were enjoyed.

Next in importance to the refreshments was when the moment came for the opening of the gifts. Little Miss Stilson must have thought that Santa Claus had made a mistake in dates, so many and nice were the presents which her guests added to those provided by members of the family. It may be significant for her future that a miniature broom seemed to be her favorite of all.

The guests who helped to make the day pleasant were: Misses Marie George, Maxie Sneal, Mildred George, Geraldine Hewitt, May Brooks, Helen Johnson, Catherine Swanson, Louise Wallace, Eleanor Wallace and Loretta Dunlevy, all of Winburne.

H & C Telephone Co Wants Protest Lifted

Lays Cards On Table At Meeting of Council Last Evening in Showing Necessity For Rate Increase

BOROUGH DADS HEED APPEAL

The semi-monthly meeting of Council held at the Borough building last evening was attended by nine of the twelve members. President Pletcher was in the chair and Burgess Chase was also present.

Treasurer Wright's report showed a balance of $12,898.10 in the treasury.

Burgess Chase reported three arrests and the collection of $24 in fines for June.

Engineer Hess reported on the progress of the Third street paving and recommended that the sandstone curbs on the east side be removed and concrete curbs and gutters substituted.

A. B. Reed, F. B. Kerr, A. D. Bigler, A. K. Wright and A. Wright Bigler were present regarding the condition of the public parks along the river. They complimented Council on what had been done for their improvement thus far this year, but asked that the good work be continued and suggested some additional needs. In compliance with their request President Pletcher directed that the Highway Department assist the Shade Tree Commission in the maintenance of these parks.

While the matter of beautifying the parks and the river front was up, the condition of the dam across the river at the N. Y. C. station was brought to the attention of council and the Sewer Committee was instructed to get an estimate of the cost of repairing the old dam and raising it one foot higher. The addition of a foot to this dam will raise the water well above the mouths of the many sewers opening into the river through town and succeed in changing the river front from the eye-sore and disgrace it is at present to one of the show places of the town. In addition thereto such improvement would be a decided benefit to the public health.

The Sewer Committee will report their findings at Council meeting on Monday evening, August 2d.

D. D. Guppy was present and complained about sewer conditions at Fourth and Market streets and the Sewer Committee was instructed to devise some measure of temporary relief while the enlarging of the Fourth street sewer was being provided for. The Sewer Committee contemplates the building of a sanitary sewer on Fourth street which will mean the taking of the sewage out of the Fourth street main and the utilizing of the present sewer for storm water alone.

O. B. Porter and S. R. Caldwell of the H. & C. Telephone Co., appeared before Council and made a plea to have Council withdraw its objection to the proposed service rate increase of that company. Mr. Porter, who acted as spokesman, said he appeared not as the official representative of the Telephone Company but on his own initiative and for the purpose of acquainting Council with the facts in the case and to show what they were up against. He said the H. & C. Co. property valuation was about $500,000. This property belonged to 150 investors or stockholders, 21 of this number residing right here in Clearfield; that their revenues for 1919 were $127,108. But by reason of present conditions their expenses for the year were $27,000 more than this income total. He quoted figures, giving the advance in price of materials, etc., during the past four or five years to justify their proposed increase in rates and said they must have the increase to give proper service, as the present inadequate service was due in part to the human element and part to defective and worn out mechanical parts which could not be replaced for lack of necessary funds. To make the physical valuation of the plant required by the Public Service Commission to show justification for the asked for increase in rates would require an additional $50,00, which the company did not possess, and to require them to comply therewith simply meant bankruptcy and a receivership added to their other troubles, and the increased rates in the end. That with the present stated increased rates the company would be rehabilitated and refinanced and the service improved to the desired condition.

After some discussion Council decided to withdraw its objection to the increase, provided Philipsburg, Osceola and the other objectors also joined in the movement.

Several months ago the Finance Committee and Borough Solicitor agreed with the banks of the town on financing of the Third street paving improvement and Fourth street sewer enlargement. At this meeting the banks agreed to handle the improvement bonds to be issued to provide for this work. The rate of interest was fixed at 4½ per cent., the redemption period and term of bonds agreed upon. The bonds were printed and advertised in accordance with the arrangement but when the negotiation of the bonds was attempted the bankers had changed their minds, and declaring the rate of interest on municipal bonds was now fixed at 5¼ per cent., refused to take the issue.

The above facts were contained in a report to Council made by Borough Solicitor Urey, who also presented an Ordinance providing for an issue of bonds at the new rate and the same was read and passed. This will require the reprinting of the bonds entailing an additional expense of about $100.

The work of improving Third street is already well under way, and while the money under the present conditions would not be available for thirty days yet, the banks agree to furnish the needed funds pending the advertisement of the Ordinance and sale of bonds.

PENNSY BEGINS TO LAY OFF MEN

PHILADELPHIA, July 19—A 10 per cent. reduction in the working forces of the Pennsylvania railroad will be made this week. Announcement of the cut was made today at the company's office in this city. In the Eastern region alone, which takes in the territory east of Altoona, between 11,000 and 12,000 workers will be laid off, it was stated.

It was stated the reduction was rendered necessary by the fact that expenses have been exceeding income for some time past. In view of this condition the announcement said, it was decided to "trim sails" and put economies into operation. The reduction affects the entire system.

Shopmen Affected

A majority of those to go are in the shops or clerical department. This action was decided upon at a meeting of the general staff of the railroad.

The general strike threatened by leaders of railway labor unions because of the anticipated wage awards of the railway labor board has nothing to do with the railroad's action, said high officials of the Pennsylvania today.

"It perhaps is unfortunate" said the official "that the order should come at the time when there is talk of a strike. But decision to take this step was made some time ago and is in no way connected with the matters under arbitration."

May Affect Lines West

Chicago, July 19—At the office of J. G. Rodgers, vice president of the Northwestern region of the Pennsylvania, it was said a reduction in this territory is under consideration, but the percentage of men to be laid off and the date when the order will be effective have not been decided. Each of the four Pennsylvania system regions act independently. The other two have offices at St. Louis and Pittsburgh.

By Carrier 12 cents per Week Payable to Carrier

Entered at Post Office at Clearfield, Pa., as second class matter.

The increase given railroad workers by the Government Wage Board's award made at Chicago appear to be ample and sufficient to satisfy all concerned and should serve to allay the feeling of unrest so long prevalent among railroad employes generally.

Every public spirited citizen who believes in Clearfield and wants to have the old town improved and made as pretty and inviting as possible, will heartily agree with any plan of council for the improvement of the two Witmer Parks and the entire river front. The rebuilding and raising of the dam in the river at the New York Central station is not only necessary from the standpoint of beautifying the town but is absolutely required as a public health measure. By all means let us have that dam rebuilt and raised.

Governor William C. Sproul has been called upon to appoint seventeen judges of Pennsylvania courts since he assumed office on January 21 of last year, establishing a record for this period of his administration. Two judges were named for common pleas courts of Dauphin and Warren couties last week, making nine such judges to be named since he became Governor. In the same time he has appointed one superior court judge, four orphans' court, one Allegheny county court and two Philadelphia municipal court judges.

QUADRENNIAL BUNK

In the Campaign Text Book of 1916, setting forth the arguments upon which President Wilson sought to secure re-election, there was this statement regarding the European war:

> With skill, address and courage, that has won the world's admiration, President Wilson has forced the belligerents of Europe to respect the rights of Americans and all neutrals on the high seas and has secured recognition of the rights of neutrals as defined by international law.

Everybody knows today that that statement was not true. President Wilson had not forced, nor otherwise secured, respect for the rights of Americans or of other neutrals on the high seas. Neither had he secured recognition of the rights of neutrals as defined by international law. Not only the records of our diplomatic negotiations, but the declaration of war itself, were evidence that he had not accomplished what was claimed for him during the campaign of 1916.

During the campaign of 1920 many other claims as fallacious as that will be made in behalf of the Democratic administration. The question is, whether the American peple will be deceived by unscrupulous campaign representations as they were in 1912 when the Democrats promised to reduce the cost of living, as the chief pledge, and in 1916 when keeping the country out of war was the consideration upon which President Wilson was given a second term.—Harrisburg Telegraph.

WITH THE COUNTY AGENT

PINCHOT WANTS ALL WASTE LANDS IN STATE FORESTS

HARRISBURG, July 21 Extension of the system of state forests to include all the waste mountain land in each county is contemplated by the Pennsylvania Department of Forestry. Gifford Pinchot, the state chief forester, is seeking complete information on idle tracts that would be desirable additions to the forests.

It is his policy to enlarge the state forests as rapidly as possible, so that eventually the 5,000,000 acres comprising the Pennsylvania desert may be converted into profitable timber producing areas. Approximately one-half of the forest land in Pennsylvania is now a barren waste, growing nothing of value. Forester Pinchot expects that the state will buy vast tract of cut-over and burned-over mountain land, protect them from forest fire and assure Pennsylvania of a future timber supply.

Estimates by Forester Pinchot indicate that the value of the present state forests has far more than doubled since they were purchased. Consequently, the expenditure of public funds for waste land is regarded as a profitable investment, rather than an expense.

All of the state foresters have been instructed to collect full information respecting parcels of land which should be bought and made state forests. George W. Woodruff, chief of the bureau of lands, is receiving the foresters' reports and he will compile them for early consideration by the state forest commission.

TWILIGHT MEETING AT COUNTY HOME FARM TUESDAY NIGHT

An invitation is extended to all the farmers and others interested, within reach of Clearfield to attend an evening meeting at the County Home farm on Tuesday evening after supper about 7:30.

The Farm Bureau has a Wheat Variety Test consisting of eleven different varieties besides four check plots located on this farm and from all report it is one of the best tests in the state. One of the extension men from the College will be there to discuss the varieties adapted to this county.

Remember the date, Tuesday evening at 7:30 p. m. at the County Home Farm. 7-20 2t

BUG-OLOGY

What do you call them?

Bedbug (Cimex lectularius) The origin of the name bedbug is unknown but is supposed to be naturally suggested as it is descriptive. There are many local names for these parasites for illustration, around Boston they are called "Chinches" from Baltimore comes the name "Mahogany Flat" on New York they are styled as "Red Coats" around Pittsburgh they are called "Chile Devils" in Cincinnati and the South "Night riders" in St. Louis and Chicago district "Crimson Ramblers." The Great West Favors The old saying "Bedbug bite by day, Sorrow on your head to pay" is correct. Instead of both they possess a piercing and sucking beak to draw out a portion of your blood for their own body. Bedbugs no matter what you may call them or where they come from, seldom have found a way to get rid of them if you will faithfully follow the new simple, easy Destroy Quarter "P D Q." A 25c package makes enough liquid to kill a million bedbugs, roaches, fleas, ants or confusion and P D Q will not stain. Sold by druggists everywhere. Take home a package of P D Q and get them. Digestible to the last degree. Impossible for Pesky Devils to exist where P D Q is used.

GROWING UP WITH WARREN HARDING

ESCAPES A LICKING; FIRST SMELL OF PRINTER'S INK

By JACK WARWICK
Boyhood Playmate, School Chum and First Newspaper Associate of the Republican Presidential Nominee

Warren G. Harding should have had at least one good whipping from the teacher during his school days in Caledonia. I am not here to say that he did not deserve many more, but one would have been enough to add color to this chapter of ruminations. His escape may be attributed in some measure to the fact that corporal punishment in the school room was going out of style at that time. The custom of licking, or trying to lick, the teacher went out when the graded school came in, and teachers were disposed to let well enough alone when pupils were inclined to be at all tractable. Infractions of rules had to be most flagrant to bring about demonstrations of physical force. At this period of which I write "Boosier Schoolmaster" days were fast passing away.

The nearest Warren G. came to getting a whipping is vivid in my memory. I got it. Both were involved, but it so happened that I was nearest the teacher when caught. The first and only blow struck me across the shoulder blade and produced temporary aralysis of the whole arm. In retrospection it tingles yet. The heavy hickory ruler, a yard long, was broken to pieces in the first crash. The result was that the teacher never got around to Harding, then or thereafter.

Caledonia is still talking about Harding's school days during which he maintained an attitude of ease. Though not a prodigy along any line, he absorbed easily all that was taught. Nobody ever saw him at hard study, but he shone at recitations. No other pupil had one-third as much time to give to things that were not in the curriculum. While others fought to win the prize he sailed thru on flowery beds of ease. Inasmuch as he was ever prepared for recitations, the teacher didn't find it necessary to keep one eye on him.

Warren Always "Suspect"

There were no angels in pants, long or short, enrolled in the Caledonia schools when Harding and I attended, and many irregular things happened. If one of the girls dipped her pen into the inkwell on her desk and found in it water or something that should not be there, under the rules and regulations, susicion was at once directed towards young Harding. There is a maxim against telling tales out of school. As for me, I'm opposed to telling details out of school.

In the back yonder Caledonia was a plug tobacco village. If one of the boys in school felt like nipping off a chew of "dogleg" during study hours he was in the predicament of having no place where to spit out the juice and at the same time avoid detection. At these times resourcefulness of a high order was required, and most of the boys were equipped with a mentality that enabled them to meet the emergency.

Grammar was as easy to Harding as pulling a sunfish out of the Olentangy or Wheastone river. Orthography gave him no trouble whatever. I recall at one time the word "unparalleled" was massacred and lacerated by a number of the pupils before it reached Harding. He had no trouble with it. The ease with which he handled it after others had failed so fixed itself in my mind that "unparalleled" remained in after years one of the easiest words for me to spell correctly.

Even though I have blossomed into the audacity of a sunflower where I once was a violet, I still have a natural hesitancy against going into these small details concerning the town oracle's "little devil". But there is another side to the story that must be given consideration. We have a great republic, a country that reaches out among its people to select its leaders, it is no more than fair that the people should know their candidates for high office intimately, not alone as they are, but as they were. I am telling you that Warren G. Harding was a plain American boy among American boys, equipped with a bright mind, sense of humor and unafraid of work of the commonest kind.

First Smell of Printer's Ink

"Chores" is an important word in the lexicon of the son of a country doctor. It means horses to curry and feed a stable to be kept clean and a cow to milk morning and evening. Few boys, on farms or in small towns, have learned to do these things earlier in life than Warren G. Harding learned them. If a boy may have another boy of his liking with him the labor is lightened. In love with horses myself, though not crazy about milking cows I was often with Dr. Harding soon to see that the work was done right. A team that comes in after a hard drive over mud roads needs considerable attention. Dr. Harding's horses were not neglected.

Caledonia was never a pretentious place, but it was good to live in for the fun a normal boy could get out of it after school and working hours. As a boy Warren G. never missed anything in the fun line. When life was particularly dull he relied upon his own resources to make it lively. He was popular with the business men and they never hid the cheese or nailed up the cracker barrel when they saw him coming.

It was this little town that gave Warren G. and myself our first smell of printer's ink and let us get our fingers in type. Dr. Harding was instrumental in persuading two men to come to the town and start a weekly newspaper. They called it The Argus. Three men an editor and two printers tried to live on the income from this small sheet in a town of 700 people when one could have starved to death more comfortably. The Argus was a sensation in the community for a short time, until it changed ownership and settled down to business. Under another name it still lives, and is glorifying the nomination of Warren G. Harding for President.

(Copyright 1920, N. Y. Evening Post, Inc.)

Tomorrow Jack Warwick will tell of Harding's horse racing, prayer meeting and farming days.

RESOLUTIONS OF RESPECT

Whereas Almighty God in His wisdom has seen fit to remove from among us Brother H. H. Spencer, and

Whereas in his demise Clearfield Fire Company No. 1 has lost an honorable member, a loyal fireman, and a true friend, therefore be it

Resolved: That we extend to the bereaved family our heartfelt sympathies in this hour of sorrow, that our charter be draped in mourning for a period of thirty days, that these resolutions be spread upon the minutes of the company, be published in the town papers and a copy mailed to the family of the deceased brother.

L. C. MEISE,
O. G. FONTENOY,
W. A. CHASE,
Committee.

AN INSIDE BATH MAKES YOU LOOK AND FEEL FRESH

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of lime stone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowel the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before eating more food.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, allow complexion, acid stomach; other who have bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of inside bathing.

JUNE BRIDES PLENTY

Philadelphia, July 20. (United Press.)—3200 marriage licenses were issued in the month of June here, a count of 2,787 of June 1919.

Daily Thought.

The traveled mind is the catholic mind emancipated from exclusiveness and egotism.—Amos Bronson Alcott.

INTERESTING LETTER FROM HILLSDALER

Los Angeles, Cal., July 4, 1920.
Mr. G. A. Stewart,
Editor Progress,
Clearfield, Pa.
Dear Sir:—

I will write you a few lines to let youn know what I think of California. I think this is the most beautiful place in the United States; the climate is what make it so.

We arrived here on the 13th of March and have not seen one unpleasant day since that time. We had a few nice warm showers in March and April but none in May and June, only two mornings I saw a little fog. Of course some mornings we have a high fog or what we call clouds; have no windy days, just a pleasant breeze all the time. The nights are cool, just nice for sleeping.

We left Clearfield March 8th. It was severely cold. Went clear through without even seeing the least bit of wind blow. Saw one little shower of rain and one little flurry of snow, but after we got by they had terrible storms in the middle west.

As we passed through Arizona I saw a wolf hanging on a wire fence and it reminded me of A. C. Lanbeoy, Imlisle and Hugany's wolf stories in The Progress last winter.

At Flagstaff, Arizona, was the most beautiful mountain scenery on the whole trip. There is an immense lot of waste land between Kansas and central California. Prairie dogs by the thousands along the railroad. The California Desert has nothing on it but cactus and sage brush. After passing that place we came into beautiful orange groves bending down with ripe fruit.

Passadena was the first town after passing the wilderness. It is very beautiful, some houses covered with flowers and beautiful streets lined on either side with palm trees. Los Angeles is on a flat piece of land but high mountains on the east and north and the Pacific Ocean on the south and west. Just north of the city lie Mount Lowe, Mount Echo, Mount Wilson and Old Baldy, the latter always covered with snow. This is surely a busy place as nearly every family has a car and between the hours of four and six in the evening it is almost impossible to cross the streets. There are hundreds of miles of the finest kind of streets with no frost or wet weather to destroy them. One can ride 10 or 12 miles on the street car for a nickle, transfer from one to another. The city is having a building boom this summer. The Goodyear Rubber Co. put up eleven large factory buildings and twenty-seven hundred bungalows. There are 60 large rubber companies expecting to build later, several large foundries and steel mills going up at present and dozens of large garages, movies, etc.

The Beach Cities are nice. I go down quite often. There was a bathing-suit parade at Venice just recently. About 75,000 people were present. The parade was quite long but some of the suits were just the opposite. Saw the Pacific fleet anchored in the harbor.

The fishing is good here. My son Ezra keeps us in fresh fish. No work on Saturday afternoons so he takes the Pacific electric for Long Beach. He gets some fine strings, the largest he has caught to date being twenty-three and three-four inches long and six and one-half wide. He uses rod and reel with 150-foot line.

I see in your paper something about the earthquake here, but you did not have the whole story. We have had about 20 shocks and one of them destroyed part of the town of Inglewood about five miles from Los Angeles. Quite a number of chimneys fell in this vicinity, some large buildings cracked. The heavy shock rocked the earth just like when you would step in a boat, but the people did not mind it any more than an electric storm back in Pennsylvania.

This is a nice place for any one to live who has lots of money or who knows how to get along without work. But I would advise anyone coming here to bring some money as rents are high and properties out of sight. Just ordinary bungalows sell for four thousand dollars and some nice ones as high as $20,000. One dwelling house sold last week for $175,000 with furniture. The average bungalow now rents for $80. There are people here from every state in the Union. Families coming here with children are almost compelled to buy as the majority will not rent to any but adults.

I must tell you a little about the farming out here. The most of it in this section is done by Japanese who are good gardeners. They work on Sundays. If it were not for them I don't know what the people would do out here for vegetables because the Americans won't farm here and now they are again trying to pass law to chase them off the farms. Farming is rather an expensive proposition out here. Better let the Japs alone and use them like a Christian nation should and legislate to keep any more from coming. A many of those here now were born in this country it would be a shame to cast the children back to Japan and then let the sons of the Tagesblatt leave their freedom before their full entence were up. I

Last Big Block of the Canadian Pacific
Reserved Farm Lands

THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. Until this block is disposed of, you can secure low cost a farm home in Western Canada that will make you rich and independent. The country is ideal for mixed farming as well as grain growing. Later, the same lands can be bought only from private owners—and naturally, prices will be higher. Never again on the North American Continent will farm lands be offered at prices so low.

Your Last Big Opportunity
This block contains both fertile open prairie and park lands in the Lloydminster and Battleford Districts of Central Alberta and Saskatchewan. You can buy farm lands on the rich prairies of Manitoba, Saskatchewan and Alberta at prices averaging about $18 an acre. Or land in Southern Alberta under an irrigation system of unfailing water from $30 an acre and up.

20 Years to Earn and to Pay
The Canadian Pacific offers you this land under a plan of long term, easy payments that is remarkable in the history of farm investments. You pay down 10%. Then you have no payment on the principal until the end of the fourth year, then 8% annual payments. Interest is 6%. In Central Saskatchewan, near Wheeler grew the world's prize wheat. World's prize oats were grown at Lloydminster.

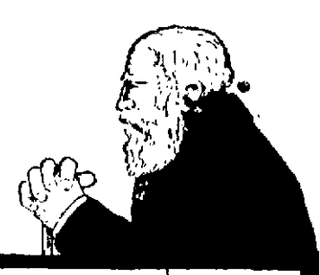
Lands Under Irrigation
In Southern Alberta, the Canadian Pacific Railway has developed the largest individual irrigation undertaking on the American Continent. This District contains some of the best lands in Canada. An unfailing supply of water is administered under the Canadian Government. Prices range from $50 an acre up, on the same easy payment terms. $200 loan in improvements. Twenty years to pay back.

No Taxes on Improvements
There's a small tax on the land we don't more than 2% anywhere for all our taxes but there are no taxes on your fine stock, buildings, improvements, implements or personal effects. Good markets, modern schools, roads, churches, amusements, make farm life desirable and attractive. Here you can achieve independence.

No Sale Without Investigation
The Canadian Pacific will not sell you a farm until you have inspected it. You must be satisfied—and every question answered before taking up your home. Investigation is invited and makes easy. This is another exclusive attraction to the last great block of Canadian Pacific Reserved Farm Lands.

Special Rates for Homeseekers
and Full Information
Special railway rates to homeseekers make the opportunity doubly attractive. Write [illegible] for free booklet telling all about this exceptional offer. Address [illegible]

LAXATIVE for Aged People



THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Chamberlain's Tablets

Shoulder to the Wheel

A Five Months' Record on the New York Central Lines

THE railroads have their shoulder to the wheel of commerce.

During the first five months of 1920, the New York Central Lines handled 3,862,579 loaded freight cars, 414,240 over the corresponding months of last year. This is a 12⅓% increase.

Of bituminous coal alone there were loaded at mines on the New York Central Lines 263,888 cars, an increase of 59,089 cars, or 29% over the loading of the same months of 1919.

In the course of those same months about 42,000,000 passengers were carried, an increase of 6,000,000, or 17% over the number carried in the corresponding months of 1919.

Sheer determination and hard work have made these achievements possible in the face of strike conditions and despite the fact that rolling stock recently ordered, and costing close to $50,000,000, cannot be delivered to the New York Central until the Fall.

Unflagging effort can overcome some difficulties, but the fact remains that the demand for transportation exceeds the available facilities and equipment. The roads still have before them the task of catching up with the growth of the country which has gone ahead, while the railroads—financially and physically—for fifteen years have been almost stationary.

The answer depends on public recognition of the railroads as fundamental and planning in advance for the heavy needs of the future. Investment in railroad securities by the public generally, and particularly by manufacturers and shippers as a safeguard to their own transportation requirements, will make possible an adequate development program for the years to come.

Fresh Fruits Fix Faded Appetites

There's a tartness to these California fruits that sort of perks up your appetite. By tartness we don't mean that they're sour or bitter. We mean that sort of undescribable taste that you crave and yet have not been able to locate.

Plums and peaches here aplenty while other delicacies are on their way.

THORN BROS.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Richard Lantz left for Detroit yesterday and expects to return about the middle of the week, bringing back with him three or four new automobiles.

Assistant Postmaster V. H. Bloom returned last evening from a week's vacation trip to Atlantic City and other summer pleasure resorts.

Ellis Kester, son of Isaac Kester who has been in the employ of the Dupont people at Wilmington, Del., for a number of years, is home for a visit and to assist in putting away the crops on the home place.

James Weber and wife, William Kuntz, wife and two children, were Sunday guests at the home of Mrs. William and Miss Lottie Bixler, on North Pine street. The visitors are all residents of Troutville, Pa.

Mrs. B. H. Jenkins and son, of Harrisburg, Pa., are visiting in the home of Dr. and Mrs. G. C. Jenkins on West State street.

It is reported that Arch Davidson will soon remove his family from Curwensville to Williamsport. Mr. Davidson being engaged in some kind of a manufacturing business in that city.

Every passing day brings that legal holiday, known as Labor Day, nearer but as yet no signs have appeared on the horizon which would indicate that there will be any celebration of it in Curwensville. Other communities have already started movements to celebrate it and keep their people at home. If the day is going to be properly observed in this town this year, a start of some kind leading in that direction ought to be made now, and thereby have plenty of time in which to arrange an appropriate program.

Jake Kantar has returned home after spending a week or better in Pittsburgh.

William Milliron was severely bitten twice in one of his legs Sunday by a dog which was running amuck. The action of the animal, as it ran from street to street, had every appearance of a mad dog. Mr. Milliron was returning home from work and saw the dog running toward him, but did not dream that the animal had any intention of biting him, and just as he passed the canine it whirled about from the direction in which it had been running and sank its fangs into Milliron's leg. The dog escaped and ran down the pike toward Clearfield. Your letter man was informed that parties followed the animal to a point near Woodland where it was killed. The dog evidently was a menace in this vicinity as no one who saw it recognized it as having been in his vicinity before.

A number of whooping cough cases have been reported among the juvenile population within the past few days.

John Thompson, son of J. Frank Thompson, of Pittsburgh, has been visiting town relatives for a week. He is following the job printing trade in the Smoky City, and this is his first visit to his native town in twelve years.

Those who picknicked out at the Bilger Rocks on Sunday reported that hail stones fell in profusion out in that vicinity during a thunder storm which prevailed during the afternoon.

NORTHERN CAMBRIA SCOTTISH CLUB CELEBRATION AT SUNSET PARK

The Eighth Annual Picnic and Games of the Northern Cambria Scottish Club will be held at Sunset Park on Saturday, August 7th, 1920. A program of games and sports will be carried out and John Tamson's Bairns are expected to gether and hae a real guid time. Something doing all day.

Continued from Page Four.

think Dr. Darkow, Lewis Werner and Herman Lemke ought to be corralled at Ellis Island with the I. W. W.'s of the West and shipped back to the land of kultur.

For my part I thought I would buy a small farm out here it satisfactory but it does not suit me for that purpose so I sold my property and am going to travel some until I find one that will suit me as I want the natural farm, and besides, land is so high here that it would take a long time to make it pay for itself.

We have had a pleasant visit here and worked enough to keep down expenses, but as farming is my trade and so many leaving the farm, I must hunt up one and give some one else my place in the factory.

DOG DAYS ARE HERE BEWARE OF THE DOG

(By United Press.)

The Dog Star is attaining its greatest brilliancy and casting its hypnotic influence over the dog.

Dog days make their appearance with the Dog star's brilliancy and are more prone to madness. The season known as dog days started on July 12 and will continue until August 26. Beware of mad dogs!

In addition to the mad dog, precaution should be taken against snakes which during dog days are more vicious.

The season also brings the harmless, but annoying insects. The locust make its appearance in the tree tops and well known by its shrill, piercing call on hot days. The tree cricket and the katydid also appear during the dog day season but not for a few weeks. They also are known by their call, more plaintive than that of the tree cricket.

When your brain *works* like a dog with three legs *walks*— you need

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your back hurts or bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back aches or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidney; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

SAGE TEA DANDY TO DARKEN HAIR

Look Years younger! Use the old-time sage tea and sulphur and nobody will know

You can turn gray, faded hair beautiful, dark and luxurious almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your luck become luxuriantly dark and beautiful.

This is the age of youth. Gray haired, unattractive folk aren't wanted around. Get busy with Wyeth's sage and sulphur compound tonight and you'll be delighted with your fluffy, even tone and appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, treatment or prevention of disease.

A Paper Pattern Here That You'll Like

Gossip for Tonight's Tea Table

Mr. and Mrs. Wilbert Stumbaugh and children Billy and Beverly of Wallaceton and Mr. and Mrs. Francis Bertolet and son Dean and Bruce of Philipsburg were recent guests of Mr. and Mrs. Alex Devine of Shawville.

Mrs. Sarah Walker and Malcom Walker of Patton township, spent last Thursday in Clearfield.

Mr. and Mrs. Dave Daniel of Dorbert township spent the week after as well as last in Youngstown, O., with Mr. Daniel's parents, Mr. and Mrs. A. J. DeVine of that place recently underwent two of the most delicate surgical operations known to science. She was taken to the Youngstown Hospital and is recovering nicely and with her little son accompanied her sister home for a few weeks' visit.

The C. F. C. girls held a lumber party at the home of Mr. Pearl Beal last evening.

Miss Dorothy Boyle is visiting with friends in New Castle.

Mr. and Mrs. Walter McMurray left to spend a couple weeks in Canada.

Mr. and Mr. Arthur Row will leave tomorrow for Cleveland Ohio where they will make their future home.

Mr. and Mrs. P. L. Bilton motored to Rochester, N. Y., yesterday to visit with relatives.

Preston Carter of New Bethlehem spent the week end with his parents Mr. and Mrs. W. J. Carter.

Mrs. Amelia Bather is visiting friends in Kaylor.

Mr. Ralph Goodlet of Patton is the guest of her mother Mrs. Harriet Iler.

Mr. Noah Delano is all in the home of her daughter Mrs. Lloyd Worley on Fourth street.

Mr. Ruth Bennett and Mr. Orbin Barnhart spent Sunday in Dubois.

Mr. and Mrs. A. J. Moore and son and Miss Jane and Julia Wallace are spending a couple weeks in Atlantic City.

Mrs. Bert Holman and daughter Jane will leave tomorrow for New Bethlehem where they will make their future home.

Geo. Kolbe left today for Pittsburgh where he has accepted a position.

Mr. Emily Hamilton entertained Mr. Arthur Row Sunday School class last evening at her home on Pine street in honor of Mr. Row who will leave tomorrow for Cleveland O. The dainty refreshments were served following a black and white color scheme.

Mr. George Pshiv who has been visiting Mr. Elmer Kantz left for Cherry Tree on Monday for Mellon Pa. to visit his brother.

Mr. William Weigel is spending a couple weeks in Atlantic City.

Dr. J. M. Coal and Frank Elliott attended the Inter Lodge Picnic of the Loyal Mahoning Valley today.

Mr. and Mrs. A. B. Martin were pleasantly entertained Mr. Martin's parents Mr. and Mrs. William Clarkson Dix street left for their home in Mt. Union, Ohio today.

Mr. Alice Thom of Dover, Ohio is visiting her aunt Mr. W. J. Irvin at her home on Cherry street for a few days.

LITTLE GIRL BURNED

Thelma, the little four year old daughter of Mr. and Mrs. Ed Heberling, narrowly escaped serious injury and probably death Tuesday evening when her clothing caught fire from a candle on the Heberling parlor table. Mr. Fulton succeeded in putting the fire out in company with a child named Lynch of about her own age the Heberling girl was playing about an improvised Christmas tree with lighted candles and it is believed that Thelma's dress came in contact with the flame and only the prompt action of Mr. Fulton saved a tragedy. The little girl was painfully burned on the arms and Mr. Fulton had his hand burned.

DEATH OF THE WIFE OF REV. B. C. CONNER

Rev. B. C. Conner, D. D., president of Dickinson Seminary and a former beloved superintendent of the Altoona district Central Pennsylvania M. E. conference will have the deepest sympathy of his many friends in the death of his wife, which occurred on Friday evening at her home at the seminary. She had been in poor health for years.

Mr. Conner was a woman of rare spiritual experience of the most beautiful character. Her funeral took place today afternoon.

ONE BODY RECOVERED FROM MINE

UNIONTOWN PA. July 20. One body of the entombed men in the United Colliery No. 1 was found today. Mine official said that recovery had penetrated 1000 feet from the shaft where the explosion occurred and expected to reach the other men during the day. Rescuers had little hope of finding the men still alive.

27-Inch wide flouncings with dainty edges suitable for baby dresses, etc.

10 Per cent. reduction on all laces and embroideries.

Beautiful Plain Dress Ginghams At 65c Yard

These fine ginghams come 32 inches wide, and will make up into pretty summer dresses at little cost.

Ford

THE UNIVERSAL CAR

Probably there is no other car that every day in the year meets the demand of the physician quite so satisfactorily as does the Ford Coupe, with its permanent top its broad seat and deep upholstering, its sliding plate glass windows, by which in a minute the car is changed from a closed car to an open car. While in inclement weather it remains a closed car, dust-proof, water-proof storm-proof. Equipped with electric starting and lighting system. Demountable rims with 30 x 3½ inch tires all around, fine exterior, and embodying all the established merits and economies of the Ford Car. Low in purchase price, low in cost of operation and maintenance; simple, yet sure in operation and durable beyond any other motor car. Just as useful to the traveling salesman, real estate man, contractor, builder, and a two seated family car. Leave your order with any of the dealers listed below.

$600,000,000 WAGE BOOST TO RAILROADERS

Substantial Increases Are Given Men In Every Department of the Service

Decision of Wage Board, Which Was Not Unanimous, Handed Down At 10 O'clock This Morning

BROTHERHOOD CHIEFS CONFER

By L. R. BLANCHARD
United Press Staff Correspondent

CHICAGO, July 20—The United States Railroad Labor Board today announced wage increases totalling alomst $600,000,000 annually for 1,894,287 employes of the roads. Leaders of the 16 railroad labor crafts affected by the increases were to go into session today at eleven o'clock to consider the award Their approval or disapproval probably will be announced by tomorrow night. Their recommendation to the workers in the ranks probably will determine whether or not there will be strike trouble in the near future.

Judge R. N. Barton, chairman of the board handed out the pamphlets containing the awards. Immediately afterwards he called a conference of all leaders of the unions and E. T. Whiter chairman of the Board of Railroad Managers, announced that union leaders were to meet the general chairmen of the unions to discuss the award.

The wage increases were given in terms of hours and per day. In the train and engineer service the increases were per day: Passenger engineers and firemen receive 80c, firemen's helpers 80c. Freight engineers and firemen $1.04, firemen's helpers $1.04. Yard engineers 18c per hour, yard firemen 18c per hour, helpers 18c per hour. Hostlers from $5.04 to $6.24 a day.

Passenger service increases were by the month. Conductors $30 a month, baggagemen, expressmen, and flagmen $30. Suburban conductors collectors and guardmen $30.

In the freight service conductors and brakemen were given $1.04 a day. In the yard service the wages were set at $6.96 per day for the firemen, $6.48 for the helpers and $5.04 per day for the switch tenders.

Clerks and station forces were given hourly wage increases Storekeepers and their helpers and clerks with more than a year of experience were given increases of 13c per hour. Clerks of less experience were awarded 6½c increase.

Gatemen, assistant station masters and parcel room employes were given a 13c increase. Janitors, elevator and switchboard operators were awarded 10c increase. All common laborers, freight station and warehouse employes not otherwise provided for were awarded 8½c increases.

Workers in the maintenance of way were given hourly increases. Mechanics except those affected by the agreement with the union 15c increase, mechanics' helpers, laborers, draw bridge tenders, pump engineers and crossing workers were given 8½c Laborers in the round house and shops such as wipers, etc., were given a 10c increase.

Shop employes including supervisors, machinists, boilermakers and all classes of skilled laborers and their helpers and apprentices were awarded a 13c increase. Car cleaners were given 5c.

All telegraph and telephone men except as otherwise provided for, tower and cab men were given 10c per hour. Stationary engineers, firemen and their helpers were given 13c increases.

The decision of the board was not unanimous. The board declared the increases were granted on the "judgment of the majority of the board." No announcement was made of the initial standing of the members. In reaching the decision the board took into consideration the following: Scale of wages for similar work in other industries relation of wages to the cost of living class of employment, training and skill required, degree of responsibility and the character and regulation of employment.

Anticipating that the award would not meet with universal approval and in order to alleviate dissatisfaction the board said "those persons who consider the rates determined herein too high should reflect on the abnormal conditions resulting from the high cost of living and the high rates now being paid in other industries. The employes who believe these rates are too low should consider the increased burden these rates will place on their fellow coutrymen perhaps less favorably situated than themselves."

METHODIST DAY AT LAKEMONT PARK

Thursday, July 22, is the big annual outing of the Methodists at Lakemont Park, Altoona. The people in a radius of a hundred miles look forward to this day as a time for renewing acquaintance, greeting friends and for hearing some of the prominent men of Methodism. The speakers this year are Rev. Dr. Morris E. Swartz, well known to Clearfield people' Bishop Bickley recently elected to the Episcopacy and assigned to Singapore in charge of the work in southeastern Asia; and Rev. Dr. T. W. McKinney, the militant pastor at Contesville.

Some years ago the Methodists from this section attended these annual gatherings in such numbers as to justify the running of a special train The rate this year over the Pennsy is $2.38 for round trip. The late train gives visitors from Clearfield a chance to enjoy most of the program.

BIG SALE OF ROAD BONDS

The state board in charge of the road bond issue will receive bids to noon of July 21 for $12 000.000 of 4½ per cent bonds. A syndicate of Philadelphia and Pittsburgh bankers will take the entire issue. It was originally intended to issue $18,000,000 of long term bonds, but instead $12,000.000 of short term bonds will be put out.

GOVERNMENT WATCHES WITH DEEP INTEREST

WASHINGTON, D. C., July 20.—The government is watching with "deep interest" the proposed lay-off of men by the Pennsylvania railroad and the closing of the American Woolen mills, it was said at the White House today. It was not indicated where any action was contemplated.

COURT NOTES

Bella Wilkinson, by her Attorney J. Ward Fleming Esq., began proceedings in the Clearfield county courts yesterday for the purpose of securing a divorce from Charles Wilkinson. They were married April 22d, 1903, and it is alleged the husband deserted Dec. 25, 1904.

Attorney Fleming also filed a notice of divorce on behalf of Augusta Lamb, who seeks to be legally divested of her former "bell sheep," Alfred Lamb. The complainant recites that when she married her old sheep on Sept. 4, 1913, he was quite lamb-like, but that almost immediately thereafter he showed a decided change of front, roaring like a lion at the smallest and with no provocation and subjecting his little lamb to cruel and barbarous treatment, keeping her in fear and trembling while he was about. She also says she has reason to believe he gamboled about the village green in England with another ewe lamb which he had legally taken into his fold and had never legally surrendered his shepherd's rights. She now regards him as a strong old mutton and having been forced to hurdle the fence of his pasture lot on Nov. 29, 1919, she will have nothing further to do with him, hence this divorce suit.

SURE WAS AN OBLIGING SONOFAGUN

LONDON, July 19.—A husband who lent his wife and paid her an allowance of $5 a week while she lived with another man has been revealed in a case before the Clerkenwell Magistrate. The loaned wife's allowance didn't arrive last week. Shown, the consignee, so to speak, found her taking his clothes out to pawn them, and he lost his temper. When she brought him into court for assault and explained to the Judge that she merely borrowed his clothes and would have reclaimed them when her allowance arrived, the judge ruled that the husband "must be a remarkably good chap," and fined Brown $10.

FATAL AUTO ACCIDENT NEAR HOLLIDAYSBURG

HOLLIDAYSBURG, PA., July 20.—Thomas A. Herr, aged 37, and Herman McDuff, aged 37, were killed today when an automobile overturned at Frankstown near here. A. F. Shomberg, and Aaron Fleck are at their homes seriously injured. The men are all business men of Altoona. George and Joseph Graff, of Punxsutawney, were also hurt.

CLEARFIELD MUSICIANS, ATTENTION

Opening rehearsal of Clearfield's American Legion Band Tuesday evening, July 20th at 8 o'clock at Legion Club Rooms in County National Bank Building.

If you have not received a letter or have no instrument come anyway.

Prof. H. Clark Thayer, director.

Let's all get together and make this a first class organization.

This evening at 8 o'clock.

THE STOCK MARKET

NEW YORK, July 20.—One o'clock prices on the stock exchange today were: American Locomotive 99¼ Bethlehem Steel B. 88¾. Cruible Steel 155½. General Motors 25. General Electric 142½. Mexican Petroleum 190, Midvale 40¾. Pennsylvania 39. Republic Iron and Steel 91¼. Westinghouse Electric 48⅜.

ATTEMPTED LYNCHING RESULTS FATALLY

DURHAM, N. C., July 20.—One man was killed and two wounded early today when a mob stormed the county jail at Graham, N. C., where three negroes accused of assaulting Mrs. A. A. Riddle were confined. The mob attempted to rush the jail three times. The mob fired on machine gunners who were guarding the jail. The guard returned the fire, killing James Ray and wounding two others. During the night the negroes were smuggled out of jail and rushed on a special train to the state prison at Raleigh.

Mrs. Riddle was attacked Saturday night and the negroes were taken into custody Sunday. Race feeling has been running high since news of the assault was made known.

TWELVE PASSENGERS INJURED IN WRECK

WILMERDING, PA., July 20.—Twelve passengers were slightly injured when an east bound Pennsylvania railroad local train was sideswiped by a freight train at a sharp curve near here today. The injured were attended by doctors from Pitcairn.

GRAMPIAN BOY MARINE SHARPSHOOTER

By showing marked skill as a rifleman, Private Andrew W. Phillips of Grampian, this county, has qualified as a sharpshooter in the U. S. Marine Corps, according to a recent official report from Santo Domingo where he is stationed. Hereafter he will wear the sharpshooter's medal and will receive an increase in pay.

Private Phillips who is a son of Charles A. Phillips of Grampian, enlisted in the Marine Corps in September, 1919 at Tulsa, Okla. After completing his period of training he was sent with a detachment of Marines to Santo Domingo, in the West Indies. During recent rifle tests, he demonstrated his ability, scoring enough hits to make his standing as a rifleman secure.

For several years the Marines have helped to preserve order and maintain good government in this turbulent little republic. That their efforts have borne fruit is testified to by returning travelers, who tell of a stabilized government, good roads, a school system, and a general improvement in the industrial conditions of the country.

It is not known just how long young Phillips will remain in Santo Domingo, but it is probable that he will return to the United States within a year, when his tour of duty in the West Indies will have been completed.

THE PASSING AWAY OF DR. C. E. BELCHER

Dr. C. E. Belcher, a former well known Munson physician, died at his home in Barnesboro, at 12 o'clock on Thursday, July 15, 1920, following a lingering illness. His demise was the result of neuphritis.

Dr. Belcher who was a native of Newark Valley, N. Y., was aged about 67 years and had practiced medicine for 35 years or more. Feeble health forced him to give up his profession several years ago. He was a genial, courteous gentleman, a successful physician, and during his residence at Munson made many warm friends.

He is survived by his widow, three sons and three daughters, viz: J. W., of Chicago; C. E., of Akron, Ohio; Lonir, of Barnesboro and Mrs. Hampton Long and Misses Mable and Kathryn at home.

The body was conveyed to Munson and buried there on Saturday afternoon.

Mr. and Mrs. John Boyle, Mr. and Mrs. Roland Toot, and Mr. and Mrs. F. E. Johnstonbaugh have returned from a motor trip to Bellefonte State College and Penn's Cave.

COL. HOUSE SUPPLIES LEAGUE AMMUNITION

MARION, O., July 19.—Another attack on the league of nations covenant was launched today by Senator Warren G. Harding, the Republican presidential nominee, when he quoted Colonel E. M. House as authority for the statement that Europe wished a preliminary peace treaty immediately after the armistice of November 11, 1918, but was deterred by the United States in expediting peace.

In a statement on the subject Senator Harding said:

"We are beginning to understand the mistakingly plighted relationships of the United States to Europe just in time to proceed to a referendum intelligently. The one representative of this country, other than the president, who knew the situation at Paris, was Colonel House. He tells us, now, in a cabled statement from London, that the suggestion of a preliminary peace treaty was made very soon after the armistice and that such a treaty could have been made before Christmas of 1918.

"All along this has been the Republican conception of what ought to have been done, but this is the first official knowledge that Europe wished such a procedure and was deterred by us in expediting peace. The authentic revelation is interesting at the moment when it is announced that the continuation of a Democratic administration means a continuation of the foreign policy which has so grievously disappointed both Europe and America."

Former Senator Jos. L. Bristow, of Kansas, who was identified with the extreme progressive group in the United States senate during his term has written Senator Harding that unless there is a revolution in public opinion between now and election Kansas will give him fully 100,000 majority.

CHAUTAUQUA TICKETS ARE GOING WELL

Clearfield's 1920 Chautauqua ticket sale is going along in very fine shape The house-to-house canvass is now being made and from the reports of the various teams the response has been nearly one hundred per cent.

To those folks who have procrastinated in their season ticket buying it will be of interest to note that when the sessions open the season ticket sale closes. That there is a vast difference between the cost of attending the individual sessions and the buying of a season ticket is generally known but this year the saving amounts to more than usual.

The teams are still at work and to those who contemplate the purchase of season tickets, the Executive Committee suggests that you get in touch with some member of the selling teams and get your ticket before it is too late.

PLEASANT BIRTHDAY PARTY AT WINBURNE

Ten little misses of Winburne gathered on Saturday afternoon at the home of Daniel M. Bloom of Winburne, to help his granddaughter Miss Rita Fern Stilson, celebrate her third birthday.

After becoming acquainted with her guests, Miss Rita Fern presided at the head of a long table in a room hung with pink and white decorations, and the main event of the afternoon was attended to, following which games were enjoyed.

Next in importance to the refreshments was when the moment came for the opening of the gifts. Little Miss Stilson must have thought that Santa Claus had made a mistake in his dates, so many and nice were the presents which her guests added to those provided by members of the family. It may be significant for her future that a miniature broom seemed to be her favorite of all.

The guests who helped to make the day pleasant were: Misses Marie George, Maude Smeal, Mildred George, Geraldine Hewitt, May Brooks, Helen Johnson, Catherine Swanson, Louise Vallance, Eleanor Vallance, and Loretta Dorney, all of Winburne.

Espy M. Litz and Sam Randolph of Akron Ohio, are visiting Mr. Litz' brother Ray Litz of Clearfield.

H & C Telephone Co Wants Protest Lifted

Lays Cards On Table At Meeting of Council Last Evening in Showing Necessity For Rate Increase

BOROUGH DADS HEED APPEAL

The semi-monthly meeting of Council held at the Borough building last evening was attended by nine of the twelve members. President Pletcher was in the chair and Burgess Chase was also present.

Treasurer Wright's report showed a balance of $12,898.10 in the treasury.

Burgess Chase reported three arrests and the collection of $24 in fines for June.

Engineer Hess reported on the progress of the Third street paving and recommended that the sandstone curbs on the east side be removed and concrete curbs and gutters substituted.

A. B. Reed, F. B. Kerr, A. D. Bigler, A. K. Wright and A. Wright Bigler were present regarding the condition of the public parks along the river. They complimented Council on what had been done for their improvement thus far this year, but asked that the good work be continued and suggested some additional needs. In compliance with their request President Pletcher directed that the Highway Department assist the Shade Tree Commission in the maintenance of these parks.

While the matter of beautifying the parks and the river front was up, the condition of the dam across the river at the N. Y. C. station was brought to the attention of council and the Sewer Committee was instructed to get an estimate of the cost of repairing the old dam and raising it one foot higher. The addition of a foot to this dam will raise the water well above the mouths of the many sewers opening into the river through town and succeed in changing the river front from the eye-sore and disgrace it is at present to one of the show places of the town. In addition thereto such improvement would be a decided benefit to the public health.

The Sewer Committee will report their findings at Council meeting on Monday evening, August 2d.

D. D. Guppy was present and complained about sewer conditions at Fourth and Market streets and the Sewer Committee was instructed to devise some measure of temporary relief while the enlarging of the Fourth street sewer was being provided for. The Sewer Committee contemplates the building of a sanitary sewer on Fourth street which will mean the taking of the sewage out of the Fourth street drain and the utilizing of the present sewer for storm water alone.

O. B. Porter and S. R. Caldwell of the H. & C. Telephone Co., appeared before Council and made a plea to have Council withdraw its objection to the proposed service rate increase of that company. Mr. Porter, who acted as spokesman, said he appeared not as the official representative of the Telephone Company but on his own initiative and for the purpose of acquainting Council with the facts in the case and to show what they were up against. He said the H. & C. Co. property valuation was about $500,000. This property belonged to 150 investors or stockholders, 21 of this number residing right here in Clearfield; that their revenues for 1919 were $127,108, but by reason of present conditions their expenses for the year were $27,000 more than this income total. He quoted figures, giving the advance in price of materials, etc., during the past four or five years to justify their proposed increase in rates and said they must have the increase to give proper service, as the present inadequate service was due in part to the human element and part to defective and worn out mechanical parts which could not be replaced for lack of necessary funds. To make the physical valuation of the plant required by the Public Service Commission to show justification for the asked for increase in rates would require an additional $5000, which the company did not possess, and to require them to comply therewith simply meant bankruptcy and a receivership added to their other troubles, and the increased rates in the end. That with the present stated increased rates the company would be rehabilitated and refinanced and the service improved to the desired condition.

After some discussion Council decided to withdraw its objection to the increase, provided Philipsburg, Osceola and the other objectors also joined in the movement.

Several months ago the Finance Committee and Borough Solicitor agreed with the banks of the town on financing of the Third street paving improvement and Fourth street sewer enlargement. At this meeting the banks agreed to handle the improvement bonds to be issued to provide for this work. The rate of interest was fixed at 4½ per cent, the redemption period and term of bonds agreed upon. The bonds were printed and advertised in accordance with the arrangement but when the negotiation of the bonds was attempted the bankers had changed their minds, and declaring the rate of interest on municipal bonds was now fixed at 5¼ per cent., refused to take the issue.

The above facts were contained in a report to Council made by Borough Solicitor Urey, who also presented an Ordinance providing for an issue of bonds at the new rate and the same was read and passed. This will require the reprinting of the bonds entailing an additional expense of about $100.

The work of improving Third street is already well under way, and while the money under the present conditions would not be available for thirty days yet, the banks agree to furnish the needed funds pending the advertisement of the Ordinance and sale of bonds.

PENNSY BEGINS TO LAY OFF MEN

PHILADELPHIA, July 19—A 10 per cent. reduction in the working forces of the Pennsylvania railroad will be made this week. Announcement of the cut was made today at the company's office in this city. In the Eastern region alone, which takes in the territory east of Altoona, between 11,000 and 12,000 workers will be laid off, it was stated.

It was stated the reduction was rendered necessary by the fact that expenses have been exceeding income for some time past. In view of this condition the announcement said, it was decided to "trim sails" and put economics into operation. The reduction affects the entire system.

Shopmen Affected

A majority of those to go are in the shops or clerical department. This action was decided upon at a meeting of the general staff of the railroad.

The general strike threatened by leaders of railway labor unions because of the anticipated wage awards of the railway labor board has nothing to do with the railroad's action, said high officials of the Pennsylvania today.

"It perhaps is unfortunate" said the official "that the order should come at the time when there is talk of a strike. But decision to take this step was made some time ago and is in no way connected with the matters under arbitration."

May Affect Lines West

Chicago, July 19—At the office of J. G. Rodgers, vice president of the Northwestern region of the Pennsylvania, it was said a reduction in this territory is under consideration, but the percentage of men to be laid off and the date when the order will be effective have not been decided. Each of the four Pennsylvania system regions act independently. The other two have offices at St. Louis and Pittsburgh.

It was originally intended to issue $18,000,000 of long term bonds, but instead $12,000,000 short term bonds will be put out.

GOVERNMENT WATCHES WITH DEEP INTEREST

WASHINGTON, D. C., July 20.—The government is watching with "deep interest" the proposed lay-off of men by the Pennsylvania railroad and the closing of the American Woolen mills, it was said at the White House today. It was not indicated where any action was contemplated.

COURT NOTES

Bella Wilkinson, by her Attorney J. Ward Fleming Esq., began proceedings in the Clearfield county courts yesterday for the purpose of securing a divorce from Charles Wilkinson. They were married April 22d, 1903, and it is alleged the husband deserted Dec. 25, 1904.

Attorney Fleming also filed a notice of divorce on behalf of Augusta Lamb, who seeks to be legally divested of her former "bell sheep." Alfred Lamb. The complainant recites that when she married her old sheep on Sept. 4, 1913, he was quite lamb-like, but that almost immediately thereafter he showed a decided change of front, roaring like a lion at the smallest and with no provocation and subjecting his little lamb to cruel and barbarous treatment, keeping her in fear and trembling while he was about. She also says she has reason to believe he gamboled about the village green in England with another ewe lamb which he had legally taken into his fold and had never legally surrendered his shepherd's rights. She now regards him as a strong old mutton and having been forced to hurdle the fence of his pasture lot on Nov. 29, 1919, she will have nothing further to do with him, hence this divorce suit.

SURE WAS AN OBLIGING SONOFAGUN

LONDON, July 19.—A husband who sent his wife and paid her an allowance of $3 a week while she lived with another man has been revealed in a case before the Clerkenwell Magistrate. The loaned wife's allowance didn't arrive last week. Brown, the consignee, went to speak, found her taking his clothes out to pawn them, and he lost his temper. When she brought him into court for assault and explained to the Judge that she merely borrowed his clothes and would have reclaimed them when her allowance arrived, the judge ruled that the husband "must be a remarkably good chap," and fined Brown $10.

FATAL AUTO ACCIDENT NEAR HOLLIDAYSBURG

HOLLIDAYSBURG, PA., July 20.—Thomas A. Herr, aged 37, and Herman McDuff, aged 37, were killed today when an automobile overturned at Frankstown near here. A. F. Shoenberg, and Aaron Fleck are at their homes seriously injured. The men are all business men of Altoona. George and Joseph Graff, of Punxsutawney, were also hurt.

CLEARFIELD MUSICIANS, ATTENTION

Opening rehearsal of Clearfield's American Legion Band Tuesday evening, July 20th at 8 o'clock at Legion Club Rooms in County National Bank building.

If you have not received a letter or have no instrument come anyway.

Prof. H. Clark Thayer, director.

Let's all get together and make this a first class organization.

This evening at 8 o'clock.

THE STOCK MARKET

NEW YORK, July 20—One o'clock prices on the stock exchange today were: American Locomotive 99, Baldwin Locomotive 88½, Crucible Steel 75½, General Motors 25, General Electric 141½, Mexican Petroleum 190, Midvale 40½, Pennsylvania 39½, Republic Iron and Steel 94, Westinghouse Electric 45½.

ATTEMPTED LYNCHING RESULTS FATALLY

DURHAM, N. C., July 20.—One man was killed and two wounded early today when a mob stormed the county jail at Graham, N. C., where three negroes accused of assaulting Mrs. A. A. Riddle were confined. The mob attempted to rush the jail three times. The mob fired on machine gunners who were guarding the jail. The guard returned the fire, killing James Ray and wounding two others. During the night the negroes were smuggled out of jail and rushed on a special train to the state prison at Raleigh.

Mrs. Riddle was attacked Saturday night and the negroes were taken into custody Sunday. Race feeling has been running high since news of the assault was made known.

TWELVE PASSENGERS INJURED IN WRECK

WILMERDING, PA., July 20.—Twelve passengers were slightly injured when an east bound Pennsylvania railroad local train was sideswiped by a freight train at a sharp curve near here today. The injured were attended by doctors from Pittsburgh.

GRAMPIAN BOY MARINE SHARPSHOOTER

By showing marked skill as a rifleman, Private Andrew W. Phillip of Grampian, this county, has qualified as a sharp-shooter in the U. S. Marine Corps, according to a recent official report from Santo Domingo where he is stationed. Hereafter he will wear the sharpshooter's medal and will receive an increase in pay.

Private Phillip who is a son of Charles A. Phillips of Grampian, enlisted in the Marine Corps in September, 1919 at Tulsa, Okla. After completing his period of training he was sent with a detachment of Marines to Santo Domingo, in the West Indies. During recent rifle tests, he demonstrated his ability, coring enough hits to make his standing as a rifleman secure.

For several years the Marines have helped to preserve order and maintain good government in this turbulent little republic. That their efforts have borne fruit is testified to by returning travelers, who tell of a stabilized government, good roads, a school system, and a general improvement in the industrial conditions of the country.

It is not known just how long young Phillips will remain in Santo Domingo, but it is probable that he will return to the United States within a year, when his tour of duty in the West Indies will have been completed.

THE PASSING AWAY OF DR. C. E. BELCHER

Dr. C. E. Belcher, a former well known Munson physician, died at his home in Barnesboro, at 12 o'clock on Thursday, July 15, 1920, following a lingering illness. His demise was the result of neuphritis.

Dr. Belcher who was a native of Newark Valley, N. Y., was aged about 67 years and had practiced medicine for 35 years or more. Feeble health forced him to give up his profession several years ago. He was a genial courteous gentleman, a successful physician, and during his residence at Munson made many warm friends.

He is survived by his widow, three sons and three daughters, viz: J. W., of Chicago; C. E., of Akron, Ohio; Louis of Barnesboro and Mrs. Harper Long and Mrs. Maude and Kathryn at home.

The body was conveyed to Munson and burial there on Saturday afternoon.

Mr. and Mrs. John Boyle, Mr. and Mrs. Robert Todd, Mr. and Mrs. [illegible] motored to Altoona on Sunday and spent the day with Mr. and Mrs. Peter Boyle.

COL. HOUSE SUPPLIES LEAGUE AMMUNITION

MARION, O., July 19.—Another attack on the league of nations covenant was launched today by Senator Warren G. Harding, the Republican presidential nominee, when he quoted Colonel E. M. House as authority for the statement that Europe wished a preliminary peace treaty immediately after the armistice of November 11, 1918, but was deterred by the United States in expediting peace.

In a statement on the subject Senator Harding said:

"We are beginning to understand the mistakingly plighted relationships of the United States to Europe just in time to proceed to a referendum intelligently. The one representative of this country, other than the president, who knew the situation at Paris, was Colonel House. He tells us, now, in a cabled statement from London, that the suggestion of a preliminary peace treaty was made very soon after the armistice and that such a treaty could have been made before Christmas of 1918.

"All along this has been the Republican conception of what ought to have been done, but this is the first official knowledge that Europe wished such a procedure and was deterred by us in expediting peace. The authentic revelation is interesting at the moment when it is announced that the continuation of a Democratic administration means a continuation of the foreign policy which has so grievously disappointed both Europe and America."

Former Senator Jos. L. Bristow, of Kansas, who was identified with the extreme progressive group in the United States senate during his term has written Senator Harding that unless there is a revolution in public opinion between now and election Kansas will give him fully 100,000 majority.

CHAUTAUQUA TICKETS ARE GOING WELL

Clearfield's 1920 Chautauqua ticket sale is going along in very fine shape. The house-to-house canvass is now being made and from the reports of the various teams the response has been nearly one hundred per cent.

To those folks who have procrastinated in their season ticket buying it will be of interest to note that when the sessions open the season ticket sale closes. That there is a vast difference between the cost of attending the individual sessions and the buying of a season ticket is generally known but this year the saving amounts to more than usual.

The teams are still at work and to those who contemplate the purchase of season tickets, the Executive Committee suggests that you get in touch with some member of the selling teams and get your ticket before it is too late.

PLEASANT BIRTHDAY PARTY AT WINBURNE

Ten little misses of Winburne gathered on Saturday afternoon at the home of Daniel M. Bloom of Winburne, to help his granddaughter Miss Rita Fern Stilson, celebrate her 10th birthday.

After becoming acquainted with her guests, Miss Rita Fern presided at the head of a long table in a room hung with pink and white decorations, and the main event of the afternoon was attended to, following which games were enjoyed.

Next in importance to the refreshments was when the moment came for the opening of the gifts. Little Miss Stilson must have thought that Santa Claus had made a mistake in dates, so many and nice were the presents which her guests added to those provided by members of the family. It may be significant for her future that a miniature broom seemed to be her favorite of all.

The guests who helped to make the day pleasant were: Misses Marie George, Maxie Sneed, Mildred George, Geraldine Hewitt, May Brooks, Helen Johnson, Catherine Swanson, Louise Wallace, Eleanor Wallace and Loretta Dempsey, all of Winburne.

Reps. M. Lee and Sam Reichard of Altoona, Orie Hershey, Mr. [illegible] of this city and Roy Lutz of Osceola.

H & C Telephone Co Wants Protest Lifted

Lays Cards On Table At Meeting of Council Last Evening in Showing Necessity For Rate Increase

BOROUGH DADS HEED APPEAL

The semi-monthly meeting of Council held at the Borough building last evening was attended by nine of the twelve members. President Pletcher was in the chair and Burgess Chase was also present.

Treasurer Wright's report showed a balance of $12,898.10 in the treasury.

Burgess Chase reported three arrests and the collection of $24 in fines for June.

Engineer Hess reported on the progress of the Third street paving and recommended that the sandstone curbs on the east side be removed and concrete curbs and gutters substituted.

A. B. Reed, F. B. Kerr, A. D. Bigler, A. K. Wright and A. Wright Bigler were present regarding the condition of the public parks along the river. They complimented Council on what had been done for their improvement thus far this year, but asked that the good work be continued and suggested some additional needs. In compliance with their request President Pletcher directed that the Highway Department assist the Shade Tree Commission in the maintenance of these parks.

While the matter of beautifying the parks and the river front was up, the condition of the dam across the river at the N. Y. C. station was brought to the attention of council and the Sewer Committee was instructed to get an estimate of the cost of repairing the old dam and raising it one foot higher. The addition of a foot to this dam will raise the water well above the mouths of the many sewers opening into the river through town and succeed in changing the river front from the eye-sore and disgrace it is at present to one of the show places of the town. In addition thereto such improvement would be a decided benefit to the public health.

The Sewer Committee will report their findings at Council meeting on Monday evening, August 2d.

D. D. Guppy was present and complained about sewer conditions at Fourth and Market streets and the Sewer Committee was instructed to devise some measure of temporary relief while the enlarging of the Fourth street sewer was being provided for. The Sewer Committee contemplates the building of a sanitary sewer on Fourth street which will mean the taking of the sewage out of the Fourth street main and the utilizing of the present sewer for storm water alone.

O. B. Porter and S. R. Caldwell of the H. & C. Telephone Co., appeared before Council and made a plea to have Council withdraw its objection to the proposed service rate increase of that company. Mr. Porter, who acted as spokesman, said he appeared not as the official representative of the Telephone Company but on his own initiative and for the purpose of acquainting Council with the facts in the case and to show what they were up against. He said the H. & C. Co. property valuation was about $500,000. This property belonged to 150 investors or stockholders, 21 of this number residing right here in Clearfield; that their revenues for 1919 were $127,108. But by reason of present conditions their expenses for the year were $27,000 more than this income total. He quoted figures, giving the advance in price of materials, etc., during the past four or five years to justify their proposed increase in rates and said they must have the increase to give proper service, as the present inadequate service was due in part to the human element and part to defective and worn out mechanical parts which could not be replaced for lack of necessary funds. To make the physical valuation of the plant required by the Public Service Commission to show justification for the asked for increase in rates would require an additional $50,00, which the company did not possess, and to require them to comply therewith simply meant bankruptcy and a receivership added to their other troubles, and the increased rates in the end. That with the present stated increased rates the company would be rehabilitated and refinanced and the service improved to the desired condition.

After some discussion Council decided to withdraw its objection to the increase, provided Philipsburg, Osceola and the other objectors also joined in the movement.

Several months ago the Finance Committee and Borough Solicitor agreed with the banks of the town on financing of the Third street paving improvement and Fourth street sewer enlargement. At this meeting the banks agreed to handle the improvement bonds to be issued to provide for this work. The rate of interest was fixed at 4½ per cent., the redemption period and term of bonds agreed upon. The bonds were printed and advertised in accordance with the arrangement but when the negotiation of the bonds was attempted the bankers had changed their minds, and declaring the rate of interest on municipal bonds was now fixed at 5¼ per cent., refused to take the issue.

The above facts were contained in a report to Council made by Borough Solicitor Urey, who also presented an Ordinance providing for an issue of bonds at the new rate and the same was read and passed. This will require the reprinting of the bonds entailing an additional expense of about $100.

The work of improving Third street is already well under way, and while the money under the present conditions would not be available for thirty days yet, the banks agree to furnish the needed funds pending the advertisement of the Ordinance and sale of bonds.

PENNSY BEGINS TO LAY OFF MEN

PHILADELPHIA, July 19—A 10 per cent. reduction in the working forces of the Pennsylvania railroad will be made this week. Announcement of the cut was made today at the company's office in this city. In the Eastern region alone, which takes in the territory east of Altoona, between 11,000 and 12,000 workers will be laid off, it was stated.

It was stated the reduction was rendered necessary by the fact that expenses have been exceeding income for some time past. In view of this condition the announcement said, it was decided to "trim sails" and put economies into operation. The reduction affects the entire system.

Shopmen Affected

A majority of those to go are in the shops or clerical department. This action was decided upon at a meeting of the general staff of the railroad.

The general strike threatened by leaders of railway labor unions because of the anticipated wage awards of the railway labor board has nothing to do with the railroad's action, said high officials of the Pennsylvania today.

"It perhaps is unfortunate" said the official "that the order should come at the time when there is talk of a strike. But decision to take this step was made some time ago and is in no way connected with the matters under arbitration."

May Affect Lines West

Chicago, July 19—At the office of J. G. Rodgers, vice president of the Northwestern region of the Pennsylvania, it was said a reduction in this territory is under consideration, but the percentage of men to be laid off and the date when the order will be effective have not been decided. Each of the four Pennsylvania system regions act independently. The other two have offices at St. Louis and Pittsburgh.

Entered at Post Office at Clearfield, Pa., as second class matter.

The increase given railroad workers by the Government Wage Board's award made at Chicago appear to be ample and sufficient to satisfy all concerned and should serve to allay the feeling of unrest so long prevalent among railroad employes generally.

Every public spirited citizen who believes in Clearfield and wants to have the old town improved and made as pretty and inviting as possible, will heartily agree with any plan of council for the improvement of the two Witmer Parks and the entire river front. The rebuilding and raising of the dam in the river at the New York Central station is not only necessary from the standpoint of beautifying the town but is absolutely required as a public health measure. By all means let us have that dam rebuilt and raised.

Governor William C. Sproul has been called upon to appoint seventeen judges of Pennsylvania courts since he assumed office on January 21 of last year, establishing a record for this period of his administration. Two judges were named for common pleas courts of Dauphin and Warren couties last week, making nine such judges to be named since he became Governor. In the same time he has appointed one superior court judge, four orphans' court, one Allegheny county court and two Philadelphia municipal court judges.

QUADRENNIAL BUNK

In the Campaign Text Book of 1916, setting forth the arguments upon which President Wilson sought to secure re-election, there was this statement regarding the European war:

> With skill, address and courage, that has won the world's admiration, President Wilson has forced the belligerents of Europe to respect the rights of Americans and all neutrals on the high seas and has secured recognition of the rights of neutrals as defined by international law.

Everybody knows today that that statement was not true. President Wilson had not forced, nor otherwise secured, respect for the rights of Americans or of other neutrals on the high seas. Neither had he secured recognition of the rights of neutrals as defined by international law. Not only the records of our diplomatic negotiations, but the declaration of war itself, were evidence that he had not accomplished what was claimed for him during the campaign of 1916.

During the campaign of 1920 many other claims as fallacious as that will be made in behalf of the Democratic administration. The question is, whether the American peple will be deceived by unscrupulous campaign representations as they were in 1912 when the Democrats promised to reduce the cost of living, as the chief pledge, and in 1916 when keeping the country out of war was the consideration upon which President Wilson was given a second term.—Harrisburg Telegraph.

WITH THE COUNTY AGENT

PINCHOT WANTS ALL WASTE LANDS IN STATE FORESTS

HARRISBURG, July 21 Extension of the system of state forests to include all the waste mountain land in each county is contemplated by the Pennsylvania Department of Forestry. Gifford Pinchot, the state chief forester, is seeking complete information on idle tracts that would be desirable additions to the forests.

It is his policy to enlarge the state forests as rapidly as possible, so that eventually the 5,000,000 acres comprising the Pennsylvania desert may be converted into profitable timber producing areas. Approximately one-half of the forest land in Pennsylvania is now a barren waste, growing nothing of value. Forester Pinchot expects that the state will buy vast tract of cut-over and burned-over mountain land, protect them from forest fire and assure Pennsylvania of a future timber supply.

Estimates by Forester Pinchot indicate that the value of the present state forests has far more than doubled since they were purchased. Consequently, the expenditure of public funds for waste land is regarded as a profitable investment, rather than an expense.

All of the state foresters have been instructed to collect full information respecting parcels of land which should be bought and made state forests. George W. Woodruff, chief of the bureau of lands, is receiving the foresters' reports and he will compile them for early consideration by the state forest commission.

TWILIGHT MEETING AT COUNTY HOME FARM TUESDAY NIGHT

An invitation is extended to all the farmers and others interested, within reach of Clearfield to attend an evening meeting at the County Home farm on Tuesday evening after supper about 7:30.

The Farm Bureau has a Wheat Variety Test consisting of eleven different varieties besides four check plots located on this farm and from all report it is one of the best tests in the state. One of the extension men from the College will be there to discuss the varieties adapted to this county.

BUG-OLOGY

What do you call them?

Bedbug (Cimex lectularius) The origin of the name bedbug is unknown but is supposed to be naturally suggested as it is descriptive. There are many local names for these parasites for illustration, around Boston they are called "Chinches" from Baltimore comes the name "Mahogany Flat" on New York they are styled as "Red Coats" around Pittsburgh they are called "Chinch Bugs" in Cincinnati and the South "Night riders" in St. Louis and Chicago district "Crimson Ramblers." The Great West Favors "The old saying 'Bedbug bite no teeth but they set them just the same' is correct. Instead of teeth they possess a piercing and sucking beak to draw out a portion of your blood for their own body. Bedbugs no matter what you may call them or where they come from, seem to have found a way to feed on all you will faithfully the news an nance. Sure P D Q will feed [illegible] to get them [illegible] digestible [illegible] to exist where P D Q is used.

GROWING UP WITH WARREN HARDING

ESCAPES A LICKING; FIRST SMELL OF PRINTER'S INK

By JACK WARWICK
Boyhood Playmate, School Chum and First Newspaper Associate of the Republican Presidential Nominee

Warren G. Harding should have had at least one good whipping from the teacher during his school days in Caledonia. I am not here to say that he did not deserve many more, but one would have been enough to add color to this chapter of ruminations. His escape may be attributed in some measure to the fact that corporal punishment in the school room was going out of style at that time. The custom of licking, or trying to lick, the teacher went out when the graded school came in, and teachers were disposed to let well enough alone when pupils were inclined to be at all tractable. Infractions of rules had to be most flagrant to bring about demonstrations of physical force. At this period of which I write "Boosier Schoolmaster" days were fast passing away.

The nearest Warren G. came to getting a whipping is vivid in my memory. I got it. Both were involved, but it so happened that I was nearest the teacher when caught. The first and only blow struck me across the shoulder blade and produced temporary aralysis of the whole arm. In retrospection it tingles yet. The heavy hickory ruler, a yard long, was broken to pieces in the first crash. The result was that the teacher never got around to Harding, then or thereafter.

Caledonia is still talking about Harding's school days during which he maintained an attitude of ease. Though not a prodigy along any line, he absorbed easily all that was taught. Nobody ever saw him at hard study, but he shone at recitations. No other pupil had one-third as much time to give to things that were not in the curriculum. While others fought to win the prize he sailed thru on flowery beds of ease. Inasmuch as he was ever prepared for recitations, the teacher didn't find it necessary to keep one eye on him.

Warren Always "Suspect"

There were no angels in pants, long or short, enrolled in the Caledonia schools when Harding and I attended, and many irregular things happened. If one of the girls dipped her pen into the inkwell on her desk and found in it water or something that should not be there, under the rules and regulations, susicion was at once directed towards young Harding. There is a maxim against telling tales out of school. As for me, I'm opposed to telling details out of school.

In the back yonder Caledonia was a plug tobacco village. If one of the boys in school felt like nipping off a chew of "dogleg" during study hours he was in the predicament of having no place where to spit out the juice and at the same time avoid detection. At these times resourcefulness of a high order was required, and most of the boys were equipped with a mentality that enabled them to meet the emergency.

Grammar was as easy to Harding as pulling a sunfish out of the Olentangy or Wheastone river. Orthography gave him no trouble whatever. I recall at one time the word "unparalleled" was massacred and lacerated by a number of the pupils before it reached Harding. He had no trouble with it. The ease with which he handled it after others had failed so fixed itself in my mind that "unparalleled" remained in after years one of the easiest words for me to spell correctly.

Even though I have blossomed into the audacity of a sunflower where I once was a violet, I still have a natural hesitancy against going into these small details concerning the town oracle's "little devil". But there is another side to the story that must be given consideration. We have a great republic, a country that reaches out among its people to select its leaders, it is no more than fair that the people should know their candidates for high office intimately, not alone as they are, but as they were. I am telling you that Warren G. Harding was a plain American boy among American boys, equipped with a bright mind, sense of humor and unafraid of work of the commonest kind.

First Smell of Printer's Ink

"Chores" is an important word in the lexicon of the son of a country doctor. It means horses to curry and feed a stable to be kept clean and a cow to milk morning and evening. Few boys, on farms or in small towns, have learned to do these things earlier in life than Warren G. Harding learned them. If a boy may have another boy of his liking with him the labor is lightened. In love with horses myself, though not crazy about milking cows I was often with Dr. Harding soon to see that the work was done right. A team that comes in after a hard drive over mud roads needs considerable attention. Dr. Harding's horses were not neglected.

Caledonia was never a pretentious place, but it was good to live in for the fun a normal boy could get out of it after school and working hours. As a boy Warren G. never missed anything in the fun line. When life was particularly dull he relied upon his own resources to make it lively. He was popular with the business men and they never hid the cheese or nailed up the cracker barrel when they saw him coming.

It was this little town that gave Warren G. and myself our first smell of printer's ink and let us get our fingers in type. Dr. Harding was instrumental in persuading two men to come to the town and start a weekly newspaper. They called it The Argus. Three men an editor and two printers tried to live on the income from this small sheet in a town of 700 people when one could have starved to death more comfortably. The Argus was a sensation in the community for a short time, until it changed ownership and settled down to business. Under another name it still lives, and is glorifying the nomination of Warren G. Harding for President.

(Copyright 1920, N. Y. Evening Post, Inc.)

Tomorrow Jack Warwick will tell of Harding's horse racing, prayer meeting and farming days.

LEGAL Intelligence

NOTICE TO BIDDERS

The Board of Directors of the School District of Clearfield Borough hereby gives notice that it will receive sealed bids up to 7:30 o'clock p. m. on 3rd day of July, 1920, for furnishing coal for the school year 1920-1921 at the following school houses in the borough of Clearfield and in the following approximate amounts:

	Net Tons
New High School	210
Junior High School	155
Leonard Grade School	70
Third Ward School	120
Fourth Ward School	80
Reedsville	30

Bids will be received for the supply of any one or more buildings, or for the supply at all of the buildings.

Bids will be opened at the High School building July 23, 1920 at 7:30 p. m.

The right is reserved to reject any or all bids.

School District of Clearfield Borough,
By A. D. BIGLER, Pres.

Attest:
W. E. GILLILAND, Sec.

RESOLUTIONS OF RESPECT

Whereas Almighty God in His wisdom has seen fit to remove from among us Brother H. H. Spencer, and

Whereas in his demise Clearfield Fire Company No. 1 has lost an honorable member, a loyal fireman, and a true friend, therefore be it

Re-solved: That we extend to the bereaved family our heartfelt sympathies in this hour of sorrow, that our charter be draped in mourning for a period of thirty days, that these resolutions be spread upon the minutes of the company, be published in the town papers and a copy mailed to the family of the deceased brother.

L. C. MEISE,
O. G. FONTENOY,
W. A. CHASE,
Committee.

AN INSIDE BATH MAKES YOU LOOK AND FEEL FRESH

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of lime tone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowel the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before eating more food.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, allow complexion, acid stomach; other who have bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of inside bathing.

JUNE BRIDES PLENTY

Philadelphia, July 20. (United Press)—3200 marriage licenses were issued in the month of June here, a count of 2,787 of June 1919.

Daily Thought.

The traveled mind is the catholic mind, emancipated from exclusiveness and provincialism.—Amos Bronson Alcott.

INTERESTING LETTER FROM HILLSDALER

Los Angeles, Cal., July 4, 1920.
Mr. G. A. Stewart,
Editor Progress,
Clearfield, Pa.
Dear Sir:—

I will write you a few lines to let youn know what I think of California. I think this is the most beautiful place in the United States; the climate is what make it so.

We arrived here on the 13th of March and have not seen one unpleasant day since that time. We had a few nice warm showers in March and April but none in May and June, only two mornings I saw a little fog. Of course some mornings we have a high fog or what we call clouds; have no windy days, just a pleasant breeze all the time. The nights are cool, just nice for sleeping.

We left Clearfield March 8th. It was severely cold. Went clear through without even seeing the least bit of wind blow. Saw one little shower of rain and one little flurry of snow, but after we got by they had terrible storms in the middle west.

As we passed through Arizona I saw a wolf hanging on a wire fence and it reminded me of A. C. Lanbeoy, Delisle and Hugany's wolf stories in The Progress last winter.

At Flagstaff, Arizona, was the most beautiful mountain scenery on the whole trip. There is an immense lot of waste land between Kansas and central California. Prairie dogs by the thousands along the railroad. The California Desert has nothing on it but cactus and sage brush. After passing that place we came into beautiful orange groves bending down with ripe fruit.

Passadena was the first town after passing the wilderness. It is very beautiful, some houses covered with flowers and beautiful streets, lined on either side with palm trees. Los Angeles is on a flat piece of land but high mountains on the east and north and the Pacific Ocean on the south and west. Just north of the city lie Mount Lowe, Mount Echo, Mount Wilson and Old Baldy, the latter always covered with snow. This is surely a busy place as nearly every family has a car and between the hours of four and six in the evening it is almost impossible to cross the streets. There are hundreds of miles of the finest kind of streets with no frost or wet weather to destroy them. One can ride 10 or 12 miles on the street car for a nickle, transfer from one to another. The city is having a building boom this summer. The Goodyear Rubber Co. put up eleven large factory buildings and twenty-seven hundred bungalows. There are 60 large rubber companies expecting to build later, several large foundries and steel mills going up at present and dozens of large garages, movies, etc.

The Beach Cities are nice. I go down quite often. There was a bathing-suit parade at Venice just recently. About 75,000 people were present. The parade was quite long but some of the suits were just the opposite. Saw the Pacific fleet anchored in the harbor.

The fishing is good here. My son Ezra keeps us in fresh fish. No work on Saturday afternoons so he takes the Pacific electric for Long Beach. He gets some fine strings, the largest he has caught to date being twenty-three and three-four inches long and six and one-half wide. He uses rod and reel with 150-foot line.

I see in your paper something about the earthquake here, but you did not have the whole story. We have had about 20 shocks and one of them destroyed part of the town of Inglewood about five miles from Los Angeles. Quite a number of chimneys fell in this vicinity, some large buildings cracked. The heavy shock rocked the earth just like when you would step in a boat, but the people did not mind it any more than an electric storm back in Pennsylvania.

This is a nice place for any one to live who has lots of money or who knows how to get along without work. But I would advise anyone coming here to bring some money as rents are high and properties out of sight. Just ordinary bungalows sell for four thousand dollars and some nice ones as high as $20,000. One dwelling house sold last week for $175,000 with furniture. The average bungalow now rents for $80. There are people here from every state in the Union. Families coming here with children are almost compelled to buy as the majority will not rent to any but adults.

I must tell you a little about the farming out here. The most of it in this section is done by Japanese who are good gardeners. They work on Sundays. If it were not for them I don't know what the people would do out here for vegetables because the Americans won't farm here and now they are again trying to pass law to chase them off the farms. Farming is rather an expensive proposition out here. Better let the Japs alone and use them like a Christian nation should and legislate to keep any more from coming. A many of those here now were born in this country it would be a shame to ex-e the children back to Japan and then let the sons of the Tagesblatt have their freedom before their jail sentence were up. I

Last Big Block of the Canadian Pacific
Reserved Farm Lands

THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. Until this block is disposed of, you can secure low cost a farm home in Western Canada that will make you rich and independent. The country is ideal for mixed farming as well as grain growing. Later, the same lands can be bought only from private owners—and naturally, prices will be higher. Never again on the North American Continent will farm lands be offered at prices so low.

Your Last Big Opportunity
This block contains both fertile open prairie and park lands in the Lloydminster and Battleford Districts of Central Alberta and Saskatchewan. You can buy farm lands on the rich prairies of Manitoba, Saskatchewan and Alberta at prices averaging about $18 an acre. Or land in Southern Alberta under an irrigation system of unfailing water from $30 an acre and up.

20 Years to Earn and to Pay
The Canadian Pacific offers you this land under a plan of long term, easy payments that is remarkable in the history of farm investments. You pay down 10%. Then you have no payment on the principal until the end of the fourth year, then 8% annual payments. Interest is 6%. In Central Saskatchewan, Saskatchewan grew the world's prize wheat. World's prize oats were grown at Lloydminster.

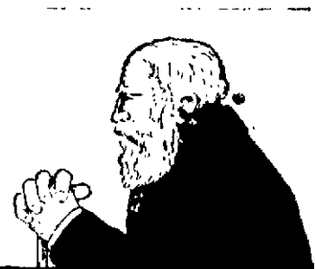
Lands Under Irrigation
In Southern Alberta, the Canadian Pacific Railway has developed the largest individual irrigation undertaking on the American Continent. This District contains some of the best lands in Canada. An unfailing supply of water is administered under the Canadian Government. Prices range from $30 an acre up, on the same easy payment terms. $200 loan in improvements. Twenty years to pay back.

No Taxes on Improvements
There's a small tax on the land we don't more than 2% anywhere for all our taxes but there are no taxes on your fine stock, buildings, improvements, implements or personal effects. Good markets, modern schools, roads, churches, amusements, make farm life desirable and attractive. Here you can achieve independence.

No Sale Without Investigation
The Canadian Pacific will not sell you a farm until you have inspected it. You must be satisfied—and every question answered before taking up your home. Investigation is invited and makes easy. This announcement calls attention to the last great block of Canadian Pacific Reserved Farm Lands.

Special Rates for Homeseekers and Full Information
Special railway rates to homeseekers make inspection easy. Write illustrated [illegible] Canadian Pacific Railway, [illegible] Department of Colonization, Winnipeg, Manitoba.

LAXATIVE for Aged People



THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Chamberlain's Tablets

Shoulder to the Wheel

A Five Months' Record on the New York Central Lines

THE railroads have their shoulder to the wheel of commerce.

During the first five months of 1920, the New York Central Lines handled 3,862,579 loaded freight cars, 414,240 over the corresponding months of last year. This is a 12⅓% increase.

Of bituminous coal alone there were loaded at mines on the New York Central Lines 263,888 cars, an increase of 59,089 cars, or 29% over the loading of the same months of 1919.

In the course of those same months about 42,000,000 passengers were carried, an increase of 6,000,000, or 17% over the number carried in the corresponding months of 1919.

Sheer determination and hard work have made these achievements possible in the face of strike conditions and despite the fact that rolling stock recently ordered, and costing close to $50,000,000, cannot be delivered to the New York Central until the Fall.

Unflagging effort can overcome some difficulties, but the fact remains that the demand for transportation exceeds the available facilities and equipment. The roads still have before them the task of catching up with the growth of the country which has gone ahead, while the railroads—financially and physically—for fifteen years have been almost stationary.

The answer depends on public recognition of the railroads as fundamental and planning in advance for the heavy needs of the future. Investment in railroad securities by the public generally, and particularly by manufacturers and shippers as a safeguard to their own transportation requirements, will make possible an adequate development program for the years to come.

Plums and peaches here aplenty while other delicacies are on their way.

THORN BROS.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Richard Lantz left for Detroit yesterday and expects to return about the middle of the week, bringing back with him three or four new automobiles.

Assistant Postmaster V. H. Bloom returned last evening from a week's vacation trip to Atlantic City and other summer pleasure resorts.

Ellis Kester, son of Isaac Kester who has been in the employ of the Dupont people at Wilmington, Del., for a number of years, is home for a visit and to assist in putting away the crops on the home place.

James Weber and wife, William Kuntz, wife and two children, were Sunday guests at the home of Mrs. William and Miss Lottie Bixler, on North Pine street. The visitors are all residents of Troutville, Pa.

Mrs. B. H. Jenkins and son, of Harrisburg, Pa., are visiting in the home of Dr. and Mrs. G. C. Jenkins on West State street.

It is reported that Arch Davidson will soon remove his family from Curwensville to Williamsport. Mr. Davidson being engaged in some kind of a manufacturing business in that city.

Every passing day brings that legal holiday, known as Labor Day, nearer but as yet no signs have appeared on the horizon which would indicate that there will be any celebration of it in Curwensville. Other communities have already started movements to celebrate it and keep their people at home. If the day is going to be properly observed in this town this year, a start of some kind leading in that direction ought to be made now, and thereby have plenty of time in which to arrange an appropriate program.

Jake Kantar has returned home after spending a week or better in Pittsburgh.

William Milliron was severely bitten twice in one of his legs Sunday by a dog which was running amuck. The action of the animal, as it ran from street to street, had every appearance of a mad dog. Mr. Milliron was returning home from work and saw the dog running toward him, but did not dream that the animal had any intention of biting him, and just as he passed the canine it whirled about from the direction in which it had been running and sank its fangs into Milliron's leg. The dog escaped and ran down the pike toward Clearfield. Your letter man was informed that parties followed the animal to a point near Woodland where it was killed. The dog evidently was a danger in this vicinity as no one who saw it recognized it as having been in his vicinity before.

A number of whooping cough cases have been reported among the juvenile population within the past few days.

John Thompson, son of J. Frank Thompson, of Pittsburgh, has been visiting town relatives for a week. He is following the job printing trade in the Smoky City, and this is his first visit to his native town in twelve years.

Those who picknicked out at the Bilger Rocks on Sunday reported that hail stones fell in profusion out in that vicinity during a thunder storm which prevailed during the afternoon.

NORTHERN CAMBRIA SCOTTISH CLUB CELEBRATION AT SUNSET PARK

The Eighth Annual Picnic and Games of the Northern Cambria Scottish Club will be held at Sunset Park on Saturday, August 7th, 1920. A program of games and sports will be carried out and John Tamson's Bairns are expected to gether and hae a real guid time. Something doing all day.

Continued from Page Four.

think Dr. Darkow, Lewis Werner and Herman Lemke ought to be corralled at Ellis Island with the I. W. W.'s of the West and shipped back to the land of kultur.

For my part I thought I would buy a small farm out here it satisfactory but it does not suit me for that purpose so I sold my property and am going to travel some until I find one that will suit me as I want the natural farm, and besides, land is so high here that it would take a long time to make it pay for itself.

We have had a pleasant visit here and worked enough to keep down expenses, but as farming is my trade and so many leaving the farm, I must hunt up one and give some one else my place in the factory.

DOG DAYS ARE HERE BEWARE OF THE DOG

(By United Press.)

The Dog Star is attaining its greatest brilliancy and casting its hypnotic influence over the dog.

Dog days make their appearance with the Dog star's brilliancy and are more prone to madness. The season known as dog days started on July 12 and will continue until August 26. Beware of mad dogs!

In addition to the mad dog, precaution should be taken against snakes which during dog days are more vicious.

The season also brings the harmless, but annoying insects. The locust make its appearance in the tree tops and well known by its shrill, piercing call on hot days. The tree cricket and the katydid also appear during the dog day season but not for a few weeks. They also are known by their call, more plaintive than that of the tree cricket.

When your brain *works* like a dog with three legs *walks*— you need

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your back hurts or bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back aches or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidney; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

SAGE TEA DANDY TO DARKEN HAIR

Look Years younger! Use the old-time sage tea and sulphur and nobody will know

You can turn gray, faded hair beautiful, dark and luxurious almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your luck become luxuriantly dark and beautiful.

This is the age of youth. Gray haired, unattractive folk aren't wanted around. Get busy with Wyeth's sage and sulphur compound tonight and you'll be delighted with your fluffy, even tone and your appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, treatment or prevention of disease.

A Paper Pattern Here That You'll Like

With all outdoors putting on a new dress, why not put a new touch to the walls of your home.

We are showing hundreds of pretty patterns and designs and there is one here that will look good on that room you are going to paper.

Eating At Jordan's

Is a whole lot like eating at home other than the variety is greater.

No home could possibly afford to serve the variety that is an every day occurrence here.

It's cheaper, too.

JORDAN'S

Something New Every Day At The Virginia Chocolate Shop

The Best

in the world can easily be made the reverse by persistent strain and abuse.

STEWART'S DRUG STORE

The San Tox Store

EVERY WOMAN SHOULD KEEP MU-COL HANDY

As a Matter of Personal Hygiene and Cleanliness.

Every woman should know that Mu-Col can now be obtained at all drug stores and any woman who is ailing and suffering from diseases peculiar to her sex should at once obtain this absolutely safe and non-poisonous antiseptic. There is no necessity whatever of resorting to the roundabout and often dangerous method of giving drug internally.

A few treatments in the privacy of your home will prove the wonderful curative properties. The inflammation, congestion, irritation and soreness will quickly disappear and thousands of women who are today suffering needless agony will by its use get immediate relief and comfort.

All nature need is a trial, and this MU-COL gives. All first class drug stores can supply you. Two sizes 60c, and $1.20

Mr. Alice Thom of Dover Ohio is visiting her aunt Mr. W. J. Irvin at her home on Cherry street for a few days.

LITTLE GIRL BURNED

Thelma, the little four year old daughter of Mr. and Mrs. Ed Heberling, narrowly escaped serious injury and probably death Tuesday evening when her clothing caught fire and she was painfully burned before Mr. Fulton succeeded in putting the fire out. In company with a child named Lynch of about her own age the Heberling girl was playing about an improvised Christmas tree with lighted candles and it is thought her dress came in contact with the flame and only the prompt action of Mr. Fulton saved a tragedy. The little girl was painfully burned on the arms and Mr. Fulton had his hand burned.

DEATH OF THE WIFE OF REV. B. C. CONNER

Rev. B. C. Conner, D. D., president of Dickinson Seminary and a former beloved superintendent of the Altoona district Central Pennsylvania M. E. conference will have the deepest sympathy of his many friends in the death of his wife, which occurred on Friday evening at her home at the seminary. She had been in poor health for years.

Mr. Conner was a woman of rare spiritual experience of the most beautiful character. Her funeral took place today afternoon.

ONE BODY RECOVERED FROM MINE

UNIONTOWN PA. July 20. One body of the entombed men in the United Colliery No. 8 was found today. Mine official said that recovery had progressed 1000 feet from the shaft where the explosion occurred and expected to reach the others even more during the day. Company officials had little hope of finding the men still alive.

A Franklin Car is humored less than any other; its mechanism stands the rigors of service better, and the car itself affords more physical comfort for the occupants.

A rough road neither produces racking noise, nor discomfort to the riders, as is common with heavy, rigid cars. The Franklin is light weight and flexible. You will sense the exact difference if you will ride with us over a rough road.

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation

Ford

THE UNIVERSAL CAR

Probably there is no other car that every day in the year meets the demand of the physician quite so satisfactorily as does the Ford Coupe, with its permanent top its broad seat and deep upholstering, its sliding plate glass windows, by which in a minute the car is changed from a closed car to an open car. While in inclement weather it remains a closed car, dust-proof, water-proof storm-proof. Equipped with electric starting and lighting system. Demountable rims with 30 x 3½ inch tires all around, fine exterior, and embodying all the established merits and economies of the Ford Car. Low in purchase price, low in cost of operation and maintenance; simple, yet sure in operation and durable beyond any other motor car. Just as useful to the traveling salesman, real estate man, contractor, builder, and a two seated family car. Leave your order with any of the dealers listed below.
